Institution facilitates students' representation and engagement in various administrative, co- curricular and extracurricular activities following duly established processes and norms (student council, students representation on various bodies)

Response:

J.K.K. MUNIRAJAH COLLEGE OF TECHNOLOGY management is very interested in facilitating our students both in academic and curricular and co-curricular activities The Institute creates a platform for the active participation of the students in the various academic and administrative bodies. It empowers the students to gain leadership qualities, understanding rules & regulations, and developing execution skills.

The institute has active Student Clubs, Students Chapters, Student Associations and are actively participating as well as organizing various activities related to academics, co-curricular and extra-curricular activities with the guidance of faculty. The Institute also promotes participation of students on academic and administrative bodies. They are providing support to college-related academic/administrative work with the help of other students. They are actively involved in motivating the other students to participate in various activities conducted by the college. Students are encouraged to participate in co-curricular and extra-curricular activities in inter-college, inter-university, and National level competitions.

Internal Quality Assurance Committee. (IQAC)

The Institution believes that academic and administrative excellence will be achieved by continuous improvement of quality. Internal Quality Assurance Committee (IQAC) has a representation of Alumni students, besides the HODs, Faculties, industry experts etc., The suggestions given by the members are well taken in overall development of quality management strategies in all aspects.

Anti-Ragging Committee:

Anti-Ragging committee consists of Sub-inspector, Thasildhar, Director, Faculty, Parents and two senior students and two students from first semester with representation from staff. The committee, as per the Anti-Ragging Act of 1997, explains the implications of ragging by displaying posters at various locations of the college, on the notice boards in each academic block. It ensures that an oath in the form of Undertakings related to Anti-Ragging Act duly signed by each student and their parents are collected. This facilitates to promotion of an ambiance conducive for JKKMCT to be a ragging-free campus.

PRINCIPAL
JKK MUNIRAJAH COLLEGE
OF TECHNOLOGY
T.N. PALAYAM (Po)-638 506.

Women Development Cell :

Women Development committee consists of two girl students one each from UG and PG programs and few female staff members. The committee members meet once in every semester and suggest various activities to be taken such as empowering the female students, remedies to solve the problems faced, etc. It also focuses on conducting awareness programs that emphasize on rights of women, the welfare laws for women and health related problems.

NSS:

Institute has set up NSS to sensitize students towards societal issues and community services. NSS is also encouraged in the institute enabling the students to participate in service activities like organizing blood donation, rural health and sanitation, adult education and environmental awareness campusin the neighboring areas as a social responsibilities.

1. Students Club, Professional Society chapters

Students clubs: There are several clubs to reshape the hobbies of students. The clubs are photography club, plastic free club, Eco Club, Community Radio club.

Representation on the administrative committees :

Student feedback on amenities: Facility Management Committee is in place to address the problems pertaining to classroom, infrastructure, library, food, water and hygiene. Under the guidance of Administrative Officer one faculty and four students from each department to redress the students' grievances. Students communicate the problems, if any, to the faculty coordinator and subsequently necessary action is taken.

Alumni Association: Alumni Association is in place to strengthen the relationship amongst alumni.

Apart from the above the student representatives are included in Class committee, Student affairs, Students discipline , Personality development, Research and development committee, Canteen Committee, Hostel Committee, and Training & Placement Committee

THE FOLLOWINGS POINTS WERE DISCUSSED:

Review of previous minutes of IQAC Meeting and action plan taken report on the discussion of the previous meeting. The last IQAC meeting was held on 20-04-2021 at 10.00am. The minutes of meting were readout with a formal discussion with all IQAC members. The minutes of meeting of were approved by the IQAC members

- Resolved to ratify the annual report submitted by the institution for the academic year 2020-2021.
- To discuss the choice based credit system of UG & PG curriculum and syllabus.(R 2021)
- The committee instructed the faculty members to attend technical programs like webinars, online courses, and Conferences etc. to enhance the effective knowledge in their area of interest.
- To ratify and action taken on the proceedings of the academic review meeting for the academic year 2020-2021
- The committee reviewed the Admission process for the academic year 2021-2022.the merit scholarship and other fee concession for the welfare of the students.
- To ratify and action taken on the proceedings of the class committee meeting for the academic year 2020-2021
- To submit the result of the Anna University Examination held during the Nov/Dec 2020 and Apr/May 2021
- To submit and discuss the placement for the last academic year 2020-2021 and its improvement
- The committee invoked the Training and Placement Cell to strengthen the number of placements.
- To submit and discuss the Faculty development initiatives and financial support in the last

academic year 2020-2021 and its improvement.

- To submit and ratify the proceeding of various committees like sexual harassment anti ragging and various clubs
- It has decided to conduct value added courses beyond curriculum and for enhancing skills of the student in advanced technological field
- Committee suggested to conduct Motivational Programme for the students
- The Committee advised the faculty members to use innovative teaching during their course delivery to enhance the students understanding capability.
- To discuss the students' Performance in competitive exam like GATE/TANCET etc.
- The IQAC committee encouraged NCC/YRC Cell to concentrate on social welfare activities and awareness program for rural people.
- The committee members insisted the faculty members to effectively utilize the Moodle platform for enhancing teaching learning process in their online mode (TLP)

IQAC coordinator proposed the date for the next meeting and unanimously decided tentatively scheduled during the month of December 2021

The following points were discussed and resolved:

1. It is resolved to improve the placements in core company.
2. Alumni requested that maximum number of students get qualified with proper guidance.
3. Care should be taken to motivate all including fests and association activities regularly.
4. Faculty should motivate the students at the beginning for the software/hardware job & job opportunities in the core companies.
5. To provide guidance to the young for employment and higher studies.
6. To arrange seminars, debates, workshops on present trends in technology.
7. To gather & maintain database of employment information and to assist the members in securing suitable jobs.
8. Honorable Chairman discussed about Knowledge Production in Advanced Technology that should be taken by the association in order to give back to the society and make a difference.
9. The meeting ended with light refreshment.

STUDENTS FEEDBACK:

Mr. NAVEENKUMAR R . EEE-2016-2020 Batch

- He requested the faculty members and college management to give more importance to development of communication skills of the students. Also, He stressed the importance of acquiring practical skills for the better job opportunities.

Alumni Meet -2022, Alumni students meeting at College Seminar Hall

DATE: 22-01-22 TIME:10.30AM-12-00PM

Mr.SURYA P EEE.2016-2020 Batch

- He under lined the importance of selection of right path for the career by the students. Since every student is capable in any one of the field, they must choose right path in pursuing their career.

Mrs. MONISHA G 2018-2021 Batch

- She requested the faculty members and college management to give more importance to development of communication skills of students.
- She also underscored the fact that, the association activities conducted during afternoon of Saturday should be based on the interest of the student.

PRINCIPAL

T.N. PALAYAM (Po)-638 506.
GOBI (Tk), ERODE (Dt)

- She was also inclined to take seminars and guest lectures for the student through SKYPE software.

Mr.A. KARTHI . EEE.2016-2020 Batch

- He expressed his un-happiness over the poor attendance of the alumni from his batch and the expressed his dis-pleasure over poor attendance from recently passed out batches. The alumni meet is more important for the recently passed out students and in this meet they can meet their seniors with higher ranks and that will be helpful for them to get good jobs in future.
- He requested all alumni to visit the college as frequently as possible as well as to meet the faculty members also.

RAGGING

Ragging is strictly prohibited and is against the tradition of the Institute. Any student found indulging in ragging junior or fellow students whether inside the institute or hostel premises or outside the premises will be liable to be RUSTICATED from the college, besides being handed over to the appropriate civil authority for action in accordance with law. Be it known that ragging is as much a nuisance as much a worst from of humiliation to any student in any institute. It has its worst effect and at times has led to serious problems, therefore our emphasis on its prohibition is absolutely a logical rule with force of law.

Ragging constitutes one or more of any of the following acts

- Any conduct by any student or students whether by words spoken or written or by an act which has the effect of teasing, treating or handing with rudeness a fresher or any other student.
- Indulging in rowdy or indiscipline activities by any student/ Students which causes or is likely to cause annoyance, hardship, physical or psychology harm or to raise fear or apprehension thereof in any fresher or any other students.
- Asking any student to do any act which such student will not in the ordinary course do and which has the effect of causing or generating the sense of shame, or torment or embarrassment so as to adversely affect the physique or psyche of such fresher or any other such student.
- Any act of financial extortion or forceful expenditure burden put on a fresher or any other student by students.
- Any act of physical abuse including all variants of it: sexual abuse, homosexual assaults, and stripping, forcing obscene and lewd acts, gestures, causing bodily harm or any other danger to health of person.
- Any act or abuse by spoken words, emails, post, public insults which would also include deriving perverted pleasure, vicarious, sadistic thrill from actively or passively participating in the discomfiture to fresher or any other students.

PRINCIPAL
JKK MUNIRAJAH COLLEGE
OF TECHNOLOGY
T.N. PALAYAM (Po)-638 506.
GOBI (Tk), ERODE (Dt).

- Any act that affects mental health and self-confidence of any other student with or without any intent to derive a sadistic pleasure or showing off power, authority or passively participating in the discomfiture to fresher or any other students.

ANTI-RAGGING SQUAD

The purpose of the squad is to prevent ragging and maintain ragging free campus.

OBJECTIVES OF SETTING UP ANTI RAGGING SQUAD

- To ensure compliance with the provision of UGC regulation 2009 at the institute level.
- To monitor and oversee the performance of anti-ragging squad in prevention of ragging in the institution.
- The anti-ragging squad will consist of the following members who are expected to keep a close watch around the entire campus particularly sensitive places from ragging point of view.
- All the members of squad will keep moving around the campus in order to avoid any ragging activity.
- They all expected to make a general round of the campus with alert eyes to discourage raggers and to avoid any such happening.

ANTI RAGGING COMMITTEE

DUTIES AND RESPONSIBILITIES OF ANTI RAGGING SQUAD

It shall be the duty of the Anti-Ragging Squad to be called upon to make surprise raids on hostels, and other places vulnerable to incidents and having the potential for ragging and shall be empowered to inspect such places.

PRINCIPAL
JKK MUNIRAJAH COLLEGE
OF TECHNOLOGY
T.N. PALAYAM (Po)-638 506.
GOBI (TK), ERODE (Dt).

It shall also be the duty of the Anti-Ragging Squad to conduct an on-the-spot enquiry into any incidents of ragging referred to it by the Head of the institution or any member of the faculty or any member of the staff or any student or any parent or guardian or any employee of a service provider or by any other person, as the case may be; and the enquiry report along with recommendations shall be submitted to the Anti-Ragging Committee for action.

Provided that the Anti-Ragging Squad shall conduct such enquiry observing a fair and transparent procedure and the principles of natural justice and after giving adequate opportunity.

PUNISHMENT

If a student is found to have committed an act of indiscipline inside or outside the campus or hostel, he/she is liable to punishment as per the decision of the Practorial Board and Dean Students Welfare, by the director with the approval of management. The decision so arrival at will be final and binding and cannot be questioned or rescinded any authority.

PROVISIONS OF PUNISHMENT AGAINST THOSE WHO INDULGE IN RAGGING

Depending upon nature and gravity of the offence as established by anti-ragging committee of the Institution, the possible punishment for those found guilty of ragging at Institutional level shall be any one or any combination of the followings:

1. Suspension from attending classes.
2. With holding/withdrawing scholarship/ fellowship and other benefits.
3. Debarring for appearing in any test/examination or other evaluation process.
4. Withholding result.
5. Debarring from the representing Institution in any regional, National or International Meet, Tournament and youth festival etc.
6. Suspension/ expulsion from the Hostel.

PRINCIPAL
JKK MUNIRAJAH COLLEGE
OF TECHNOLOGY
T.N. PALAYAM (Po)-638 506.
GOBI (TK), ERODE (Dt).

7. Cancellation of admission.

8. Rustication from the institution for period ranging from 1-4 semesters.

9. Expulsion from the institution and consequent debarring from admission to any other institution.

10. Imposing a fine of Rs. 2.5 Lacs.

11. Collective punishment: when the person committing or abetting the crime of ragging are not identified, the institution shall resort to collective punishment as a deterrent to ensure community pressure on potential raggers.

12. Every single incident of ragging where the victim or his parents/ guardian or Head of Institution is not satisfied with the Institutional arrangement for action a First Information Report (FIR) must be filed without exception by the institutional authority with local; police authorities. Any delay in lodging FIR with the Local police shall be construed to be an act of culpable negligence on the part of institutional authority.

The squad meets in the beginning of the academic year and plans the activities to be taken forcurbing the ragging menace and making the students aware of punishments.

If any complaints identified and the same should be brought to the notice of anti-ragging committee and the committee will meet immediately and enquire the issue and recommends punishment.

The squad would prepare the summary report and submitted to the anti- ragging committee as the case may be to the student or students accused of ragging and other witnesses to place before it the facts, documents and views concerning the incidents of ragging, and before it the facts, documents and views concerning the incidents of ragging, and considerations such other relevant informations may be required.

OF TECHNOLOGY
T.N. PALAYAM (Po)-638 506.
GOBI (Tk), ERODE (Dt).

- Ragging is strictly prohibited by both State Govt. and Central Govt.
- Ragging is a criminal offense.
- Punishment for ragging will be as follows:

  i) Imprisonment up to three years and fine of Rs.50,000/-

  ii) Dismissal from the college

It is the duty of Anti-Ragging Committee to ensure compliance with the provisions of these Regulations as well as provisions of any law for the time being in force concerning ragging and to monitor and oversee the performance in prevention of ragging in the institution.

On receipt of the recommendation of the Anti-Ragging Squad or on receipt of any information concerning any reported incident of ragging, the Head of institution shall immediately determine it a case under the penal laws is made out and if so either on his own or through a member of the Anti-Ragging Committee authorized by him in this behalf, proceed to file a First Information Report (FIR) with the police/ local authorities and/or order for enquiry to ascertain the facts and/or take suitable action against the concerned student(s) with or without due deliberations in Anti- Ragging Committee meeting.

Head of the institution as chairman of the Anti- Ragging committee may call for the meeting of the members of the Ant Ragging committee to deliberate on action to be taken in case of any case of ragging being reported, within twenty four hours off receipt of such information or recommendation.

Provided further that the institution shall also continue with its own enquiry initiated under clause 9 of these regulations and other measures and such remedial action in clause 9 shall be initiated and completed immediately and in no case later than a period of seven days of the reported occurrence of the incident of ragging.

It is the duty of Anti-Ragging Committee to conduct an enquiry in any incident of ragging referred to it by the Head of the institution or on receipt of any information concerning any reported incident of ragging and the enquiry report along with recommendations shall be submitted to the Head of the institution for action under clause (a) of Regulation 9.1.

PRINCIPAL

REPORT OF THE ANTI – RAGGING SQUAD

Name & Designation of Squad member S. POORNIMA AP/S&H

Place of visit: 4th floor

Date & Day	Time of Visit		Details of Observation
	From	To	
19.08.21	11.00	11.45	Normal
28.08.21	10.00	10.35	Normal

If any of the following observations made by the squad members instruct the students to disperse immediately from the place. If the situation is serious, collect the details of the students(Name, Branch, Semester, Register / Roll Number) and inform them to meet the respective HoD and make a report to Director.

- Meeting of Group of Students.
- Loud noise.
- Quarrelling, Fighting.
- Talking aggressively.
- Playing immoral games.
- Rude behaviour/ Talk.

The above list is only a sample if any other kind of misbehaviour is noticed, record the facts and report to the Anti-ragging committee.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

The second class committee meeting for third year was conducted at second year ECE class room at 1.30pm.the following points were discussed in the meeting

- The committee members and faculty members were given warm welcome by the head of the department.
- The Chairperson instructed the students to be punctual, regular to the classes and maintain proper dress code.
- Students have been informed about the submission of assignments for all the theory courses.
- Students have been asked to write class tests and assignments.
- Students have been asked to write internal test- II well.
- Students were instructed to meet their respective guides during project hour without fail.
- Re-test will be conducted only for the students who are obtained prior permission (with genuine reason) from the concerned staff members. Strictly Re-test will not be conducted for other students.

FEEDBACK FROM STUDENTS:

QUESTION BANK –MICROPROCESSOR AND MICRCONTROLLER

UNIT-I-THE 8086 MICROPROCESSOR

PART-A

1. What is microprocessor?

A microprocessor is a multipurpose, programmable, clock-driven, register-based electronic device that reads binary information from a storage device called memory, accepts binary data as input and processes data according to those instructions, and provides result as output.

2. What is Accumulator?

The Accumulator is an 8-bit register that is part of the arithmetic/logic unit (ALU). This register is used to store 8-bit data and to perform arithmetic and logical operations. The result of an operation is stored in the accumulator. The accumulator is also identified as register A.

3. What is stack?

The stack is a group of memory locations in the R/W memory that is used for temporary storage of binary information during the execution of a program

4. What is a subroutine program?

A subroutine is a group of instructions written separately from the main program to perform a function that occurs repeatedly in the main program. Thus subroutines avoid the repetition of same set of instructions in the main program.

5. Define addressing mode.

Addressing mode is used to specify the way in which the address of the operand is specified within the instruction.

6. Define instruction cycle.

It is defined as the time required to complete the execution of an instruction.

7. Write a program to add a data byte located at offset 0500H in 2000H segment to another data byte

available at 0600H in the same segment and store the result at 0700H in the same segment.

MOV AX, 2000H; initialize DS with value

MOVDS, AX; 2000H

MOV AX, [500H]; Get first data byte from 0500H offset

implemented using the SS and SP registers. It is a LIFO data segment.

12. How is the stack top address calculated?

The stack top address is calculated using the contents of the SS and SP register. The contents of stack segment (SS) register is shifted left by four bit positions (multiplied by(0h)) and the resulted 20-bit content is added with the 16-bit offset value of the stack pointer(SP) register.

13. What are macros?

Macros are small routines that are used to replace strings in the program. They can have parameters passed to them, which enhances the functionality of the micro itself.

14. How are constants declared?

Constants are declared in the same way as variables, using the format:

Const–Label EQU 012h

15. What is interrupt service routine?

Interrupt means to break the sequence of operation. While the CPU is executing a program an interrupt breaks the normal sequence of execution of instructions & diverts its execution to some other program. This program to which the control is transferred is called the interrupt service routine.

PART-B

1. (a) Write an assembly language program in 8086 to search the largest data in the array
   (b) Explain the various status flags in 8086.

2. (a) Discuss the various addressing modes of 8086.
   (b) Explain the following assembler directive in 8086
   i. ASSUME ii. EQU iii. DW iv. DD

3. (a)Write short notes on Macro
   (b) Explain the function of assembler directives.

PRINCIPAL
AK MUNIRAJAH COLLEGE
OF TECHNOLOGY
T.N. PALAYAM (Po)-638 506.
GOBI (Tk), ERODE (Dt).

M/IO	RD	WR	
0	0	1	I/O Read
0	1	0	I/O Write
1	0	1	Memory read
1	1	0	Memory write.

5. What is the operation of S0, S1 and S2 pins in maximum mode?

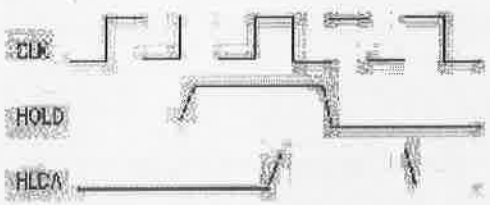
S2, S1, S0 indicates the type of transfer to take place during the current bus cycle.

S_2	S_1	S_0	
0	0	0	Interrupt acknowledge
0	0	1	Read I/O port
0	1	0	Write I/O port
0	1	1	Halt
1	0	0	Instruction fetch
1	0	1	Read Memory
1	1	0	Write Memory
1	1	1	Inactive.

6. Give any four pin definitions for maximum mode.

Symbol	Description
QS1, QS0	Reflects the status of the instruction queue. This status indicates the activity in the queue during the previous clock cycle.
$\overline{LOCK}$	Indicates that the bus is not to be relinquished to other potential bus masters.
RQ/GT1	For inputting bus requests and outputting bus grants.
RQ/GT0	Same as RQ/GT1 except that a request on RQ/GT0 has higher priority.

7. Draw the bus request and bus grant timings in minimum mode system.



Bus request and bus grant timings in minimum

12. What are pointers and index registers?

IP, BP and SP are the pointers and contain offsets within the code, data and stack segments respectively. SI and DI are the index registers, which are used as general purpose registers and also for offset storage in case of indexed, based indexed and relative based indexed addressing modes

13. How is the physical address calculated? Give an example.

The physical address, which is 20-bits long is calculated using the segment and off set registers, each 16-bits long. The segment address is shifted left bit-wise four times and offset address is added to this to produce a 20 bit physical address.

14. What is meant by memory segmentation?

Memory segmentation is the process of completely dividing the physically available memory into a number of logical segments. Each segment is 64K byte in size and is addressed by one of the segment register.

15. What are the advantages of segmented memory?

The advantages of segmented memory are:

i. Allows the memory capacity to be 1Mbyte, although the actual addresses to be handled are of 16-bit size.

ii. Allows the placing of code, data and stack portions of the same program in different parts ofmemory for data and code protection.

iii. Permits a program and/or its data to be put into different areas of memory, each times program isexecuted i.e., provision for relocation may be done.

PART-B

1. (a) Draw and explain the maximum mode of 8086
   (b) List the advantages of multiprocessor system
2. (i) Show the pin configuration and function of signals of 8086 microprocessor.
   (ii) Show the memory organization and interfacing with 8086 microprocessor. Explain how the memory is accessed.
3. (a) Explain the functions of
   i. HLDA
   ii. RQ/GT0
   iii. DEN
   iv. ALE
   (b) Draw and explain the minimum mode of 8086
4. (a) Draw and explain the block diagram of minimum mode of operation
   (b)Write notes on addressing memory

PRINCIPAL
JKK MUNIRAJAH COLLEGE
OF TECHNOLOGY
T.N. PALAYAM (Po)-638 506.
GOBI (Tk), ERODE (Dt).

represents bit set reset mode operation. The BSR mode is used to set or reset the bits in port C.

9. What is mode 0 operation of 8255?

In this mode, ports A and B are used as two simple 8-bit I/O ports and port C as two 4-bit ports. Each port can be programmed to function as an input port or an output port. The input/ output features in mode 0 as follows:

i. Outputs are latched
ii. Inputs are not latched
iii. Ports do not have handshake or interrupt capability.

10. What are the modes of operation supported by 8255?

i. Bit set reset mode (BSR)
ii. I/O mode
Mode 0
Mode1
Mode2

11. What is ADC and DAC?

The electronic circuit that translates an analog signal into a digital signal is called analog-to-digital converter(ADC).The electronic circuit translates a digital signal into an analog signal is called Digital-to-analog Converter(DAC).

12. Define conversion time.

It is defined as the total time required to convert an analog signal into a digital output. It is determined the conversion technique used and by the propagation delay in various circuits.

13. What is resolution time in ADC?

It is defined as a ratio of change in value of input voltage Vi, needed to change the digital output by 1 LSB. If the full scale input voltage required to cause a digital output of all 1"s is ViFS. Then the resolution can be given as

Resolution = ViFS / (2n-1)

14. List the functions performed by 8279.

i. It has built-in hardware to provide key debounce.

ii. It provides a scanned interface to a 64 contact key matrix.

iii. It provides multiplexed display interface with blanking and inhibit options.

4. What is stack pointer (sp)

Stack pointer (SP) is a 8 bit wide register and is incremented before the data is stored into the stack using PUSH or CALL instructions. It contains 8-bit stack top address. It is defined anywhere in the on-chip 128-byte RAM. After reset, the SP register is initialized to 07. After each write to stack operation, the 8-bit contents of the operand are stored onto the stack, after incrementing the SP register by one. It is not a top-down data structure. It is allotted an address in the special function register bank.

5. What is data pointer (DTPR)?

It is a 16-bit register that contains a higher byte (DPH) and lower byte (DPL) of a 16-bit external data RAM address. It is accessed as a 16-bit register or two 8-bit registers. It has been allotted two addresses in the special function register bank, for its two bytes DPH and DPL.

6. Why oscillator circuit is used?

Oscillator circuit is used to generate the basic timing clock signal for the operation of the circuit using crystal oscillator.

7. What is the purpose of using instruction register?

Instruction register is used for the purpose of decoding the opcode of an instruction to be executed and gives information to the timing and control unit generating necessary signals for the execution of the instruction.

8. Give the purpose of ALE/PROG signal

ALE/PROG is an address latch enable output pulse and indicates that valid address bits available on the respective pins. The ALE pulses are emitted at a rate of one-sixth of the oscillator frequency. The signal is valid only for external memory accesses.

9. What are addressing modes?

The various ways of accessing data are called addressing modes.

10. Give the addressing modes of 8051?

There are six addressing modes in 8051.They are

- Direct addressing
- Indirect addressing
- Register instruction
- Register specific (register implicit)
- Immediate mode
- Indexed addressing

11. What is direct addressing mode?

The operands are specified using the 8-bit address field, in the instruction format. Only internal data Ram and SFRS can be directly addressed. This is known as direct addressing mode.

It may be used for external timing or clockwise purpose. One ALE pulse is skipped during

PART-B

1. With the necessary diagram of control word format, explain the various operating modes of timer in 8051microcontroller
2. With the help of neat diagram explain the memory organization of 8051 microcontroller
3. With neat sketch explain the architecture/ functional block diagram of 8051 microcontroller.
4. Draw the Pin Diagram of 8051 and explain the function of various signals.
5. List the various Instructions available in 8051 microcontroller and explain.

UNIT-V

INTERFACING MICROCONTROLLERS

PART-A

1. What is a serial data buffer?

Serial data buffer is a special function register and it initiates serial transmission when byte is written to it and if read, it reads received serial data. It contains two independent registers internally. One of them is a transmit buffer, which is a parallel-in serial-out register. The other is a receive buffer, which is a serial-in parallel-out register

2. What are timer registers?

Timer registers are two 16-bit registers and can be accessed as their lower and upper bytes. TLO represents the lower byte of the timing register 0, while THO represents higher bytes of the timing register 0. Similarly, TLI and THI represent lower and higher bytes of timing register 1. These registers can be accessed using the addresses allotted to them, which lie in the special function registers address range, i.e., 801 H to FF

3. What is the use of timing and control unit?

Timing and control unit is used to derive all the necessary timing and control signals required for the internal operation of the circuit. It also derives control signals that are required for controlling the external system bus.

4. When are timer overflow bits set and reset?

The timer overflow bits are set when timer rolls over and reset either by the execution of an RET instruction or by software, manually clearing the bits. The bits are located in the TCON register along with timer run control (TRn) bits.

5. Explain the mode (0 and1) operation of the timer.

The operations are as follows

• Timer mode 0 and 1 operations are similar for the 13 bit (mode) or 16 bit (mode 1) counter. When the timer reaches the limits of the count, the overflow flag isset and the counter is resetback to zero. The modes 0 and 1 can be used to time external events.

- ET1: Enable or disable the timer 1 overflow interrupt.
- EX1: Enable or disable external interrupt 1.
- ET0: Enable or disable the timer 0 overflow interrupt.
- EX0: Enable or disable external interrupt 0.

10. What is meant by nesting of interrupts?

Nesting of interrupts means that interrupts are re-enabled inside an interrupt handler. If another interrupt request codes in, while the first interrupt handler is executing, processor execution will acknowledge the new interrupt and jump to its vector.

11. How is the 8051 serial port different from other micro controllers?

The 8051 serial port is a very complex peripheral and able to send data synchronously and asynchronously in a variety of different transmission modes.

12. Explain synchronous data transmission.

• In synchronous mode (mode 0), the instruction clock is used.

• Data transfer is initiated by writing to the serial data port address.

• Txd pin is used for clock output, while Rxd pin is for data transfer.

• When a character is received, the status of the data transfer is monitored by polling the RI-n bit in serial control register (SCON).

13. Give an application for synchronous serial communication.

An application for synchronous serial communication is RS–232.

14. When is an external memory access generated in 8051?

In 8051, during execution the data is fetched continuous. Most of the data is executed out of the 8051"s built-in control store. When an address is outside the internal control store, an external memory access is generated.

15. Give the priority level of the interrupt source

Interrupt source Priority within a

levelIE0 (External INT0)

TF0 (Timer 0)
IE 1 (External INT 1)

TF 1 (Timer 1)
RI = TI (Serial port) Highest

PREVIOUS YEAR QUESTION PAPERS OF WIRELESS NETWORKS

12/04/19

Reg. No. :

Question Paper Code : 52930

B.Tech. DEGREE EXAMINATIONS, APRIL/MAY 2019.

Eighth Semester

Electronics and Communication Engineering

EC 6802 — WIRELESS NETWORKS

(Regulation 2013)

(Common to : PTEC 6802 – Wireless Networks for B.E. (Part – Time) – Seventh Semester – Electronics and Communication Engineering (Regulations – 2014))

Time : Three hours Maximum : 100 marks

Answer ALL questions.

PART A — (10 × 2 = 20 marks)

1. Identify the need of WATM systems.
2. What are Piconet and Scatternet?
3. Define the term Care-of address in mobile IP.
4. Outline the characteristics of MANET.
5. Give any four schemes to improve the TCPs performance in wireless networks.
6. Identify the characteristics to be considered while deploying applications over 3G wireless links.
7. What is UMTS?
8. Define the Long-Term Evolution (LTE).
9. List the features of 4G.
10. Identify the focuses of Cognitive Radio.

04/11/19 - AN

Question Paper Code : 50457

B.E./B.Tech. DEGREE EXAMINATION, NOVEMBER/DECEMBER 2017

Eighth Semester

Electronics and Communication Engineering

EC6802 – WIRELESS NETWORKS

(Regulations 2013)

Time : Three Hours Maximum : 100 Marks

Answer ALL questions

PART – A (10×2=20 Marks)

1. State the MAC management functions.
2. What is the functionality L2CAP ? List the different types of logical channels.
3. When the agent solicitation message has to be sent by mobile node ?
4. Why is routing in multi-hop ad -hoc networks complicated ?
5. What is the need for I-TCP ?
6. Define fast recovery.
7. How is isolation between users in the downlink accomplished in a WCDMA system ?
8. What is meant by firewall ?
9. List some of the applications of 4G system.
10. What is cognitive radio ?

PART – B (5×16=80 Marks)

11. a) Explain in detail about the IEEE 802.11 protocol architecture and bridging with other networks.

(OR)

b) Define HiperLan-2. Discuss about the various operation modes and protocol stack in HiperLan-2.

01/11/18 (FN)

EC 6802 — WIRELESS NETWORKS

(Regulations 2013)

(Also common to PTEC 6802 – Wireless Networks for B.E. Part-Time Seventh Semester – Electronics and Communication Engineering Regulations 2014)

Time : Three hours Maximum : 100 marks

Answer ALL questions.

PART A — ($10 \times 2 = 20$ marks)

1. What is the principle behind infrared technology? What are the advantages and disadvantages of infrared technology?

2. What is WIMAX? Mention its features.

3. Define SIP. Write the functions of SIP.

4. Differentiate proactive and reactive routing protocols. Write examples for each.

5. What is I-TCP? List its merits and demerits.

6. What is Congestion Avoidance algorithm?

7. Name the functions of Radio Network Control (RNC).

8. List the functions provided by 3G-GGSN.

9. What is meant by Multi Carrier Modulation (MCM)? Mention its merits and demerits.

10. What are the techniques to improve network survivability in different layers? Name the challenges faced by 4G.

The first class committee meeting for third year was conducted at second year ECE class room at 1.30pm.the following points were discussed in the meeting.

- The committee members and faculty members were given warm welcome by the head of the department.
- Students were instructed to be punctual for their classes and to maintain the proper dress code.
- Students were instructed to be attentive in the classroom and laboratory classes.
- Students were advised to maintain good internal marks.
- University exam results were discussed and students were asked to improve their performance.
- Students were advised to actively participate in intercollege paper presentations.
- Students have been informed about the submission of assignments for all the theory courses.
- Head of the department advised to study properly and score more marks in all subjects.
- Students have been enquired about the status of the project. it has been insisted that all the students must visit their guide regularly and should report their progress in their project.
- Students have been informed to utilize the placement training hours(aptitude, technical, soft skills)and attend the placement drive for their betterment.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

UNIT I WIRELESS CHANNELS

HANDOUT

EC 8652-WIRELESS COMMUNICATION

Effects of fading.

1. Rapid changes in signal strength over a small travel distance or time interval.
2. Random frequency modulation due to varying Doppler shifts on different multipath signals
3. Time dispersion caused by multipath propagation delays.

Coherence bandwidth.

The coherence bandwidth is related to the specific multipath structure of the channel. The coherence bandwidth is a measure of the maximum frequency difference for which signals are still strongly correlated in amplitude. This bandwidth is inversely proportional to the rms value of time delay spread.

Multipath Propagation

The signal can get from the TX to the RX via a no. of different propagation paths. The signal gets reflected and diffracted by different objects. So each of the paths has a distinct amplitude, delay and direction of arrival. This effect is known as multipath propagation.

Factors influencing small scale fading.

1) Multipath propagation
2) Speed of the Mobile
3) Speed of surrounding objects
4) Transmission bandwidth of the signal

Far field distance for an antenna with maximum dimension of 2m and operating frequency 1 GHz

$D_f = 2D^2/\lambda$

$= 2 * 2 * 2/0.3$, $D_f = 26.7$ m

Two-Ray Ground Reflection Model

- This model is based on geometric optics.
- It considers both direct path and ground reflected path between Transmitter and Receiver.
- It is accurate model for predicting the large scale signal strength over distance of several kilometres.
- Earth is assumed to be flat.

* According to the laws of reflection in dielectric,

$$\theta_i = \theta_o$$

$$E_g = \Gamma E_i$$

$$E_t = E_i + E_g = E_i + \Gamma E_i = (1+\Gamma) E_i$$

where,

$\Gamma \rightarrow$ Reflection coefficient for Ground $= -1$

Path difference (Using method of images)

Δ = Ground reflected path − LoS path

$$= d'' - d'$$

$$\Delta = \sqrt{(h_t + h_r)^2 + d^2} - \sqrt{(h_t - h_r)^2 + d^2}$$

$$\boxed{\Delta = \frac{2 h_t h_r}{d}}$$

Phase difference

$$\theta_\Delta = \frac{2\pi\Delta}{\lambda} = \frac{2\pi f_c \Delta}{c} = \frac{\omega_c \Delta}{c} \rightarrow (6)$$

$$\left[\because \omega_c = 2\pi f_c, \quad \lambda = \frac{c}{f_c}\right]$$

Time delay

$$\tau_d = \frac{\Delta}{c}$$

From (6) $\Rightarrow$

$$\theta_\Delta = \frac{\omega_c \Delta}{c} \Rightarrow \Delta = \frac{\theta_\Delta c}{\omega_c}$$

$$\tau_d = \frac{\theta_\Delta c}{\omega_c \cdot c} = \frac{\theta_\Delta}{\omega_c}$$

If distance 'd' is large, the difference between d' and d'' becomes very small.

i.e. $d' \simeq d''$

Amplitudes of E_{LOS} & E_g are identical

$$\left|\frac{E_0 d_0}{d}\right| = \left|\frac{E_0 d_0}{d'}\right| = \left|\frac{E_0 d_0}{d''}\right|$$

sub (8) in (7) =>

$$|E_{TOT}(d)| = \frac{2E_0 d_0}{d} \cdot \frac{2\pi h_t h_r}{\lambda d}$$

$$|E_{TOT}(d)| = \frac{K}{d^2} \text{ V/m}$$

where,

$K = \frac{2E_0 d_0 \cdot 2\pi h_t h_r}{\lambda}$ => constant related to E_0, Antenna heights & wavelength.

* The received power at a distance 'd' from the transmitter for the two-ray ground reflection model is,

$$P_r = P_t G_t G_r \frac{h_t^2 h_r^2}{d^4}$$

Link budget design using path loss models.

- It is the clearest and most sensitive way of computing the required transmitting or transmitter power
- Gives only an approximation for the total SNR

Consists of two models

i) Log distance path loss model

ii) Log-normal shadowing model

Log-distance Path Loss Model

- Average received power decreases logarithmically with distance
- According to this model the received power at distance d is given by,

$$P_L(d)(d/d_0)^n \Longrightarrow P_L(dB) = P_L(d_0)+10n\log(d/d_0)$$

d_0= close in reference distance, often determined emperically

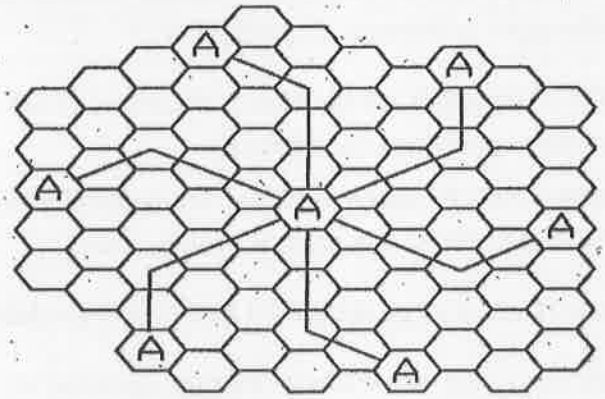
d = transmitter - receiver separation

n = path loss exponent - indicates rate of path loss increase with d_0

1. Frequency reuse or frequency planning
2. Hexagonal geometry has
3. exactly six equidistance neighbors
4. each of its neighbors are separated by multiples of 60 degrees.
5. Consider a cellular system which has a total of S duplex channels.
6. Each cell is allocated a group of k channels.
7. The S channels are divided among N cells.
8. The total number of available radio channels $S = kN$
9. The N cells which use the complete set of channels is called *cluster.*
10. The cluster can be repeated M times within the system. The total number of channels,
    a. C, is used as a measure of capacity $C = MkN = MS$
11. The capacity is directly proportional to the number of replication M.
12. The cluster size, N, is typically equal to 4, 7, or 12.

Rules for determining the nearest co-channel neighbours

- Step 1: Move i cells along any chain of hexagons.
- Step 2: Turn 60 degrees counter clockwise and more j cells
- Only certain cluster sizes and cell layout are possible



- Co-channel neighbors of a particular cell,ex, $i=3$ and $j=2$.

Various multiple access technique :

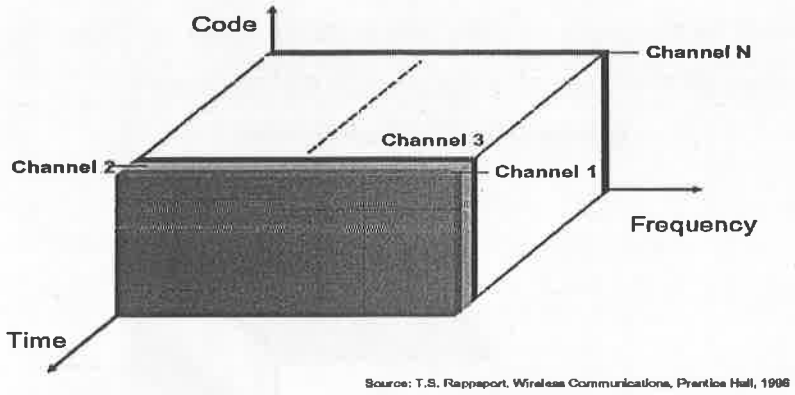
To accommodate a number of users, many traffic channels need to be made available.

There are three basic ways to have many channels within an allocatedbandwidth:

a. Frequency Division Multiple Access (FDMA)

b. Time Division Multiple Access (TDMA)

c. Code Division Multiple Access (CDMA)



The features of TDMA includes the following:

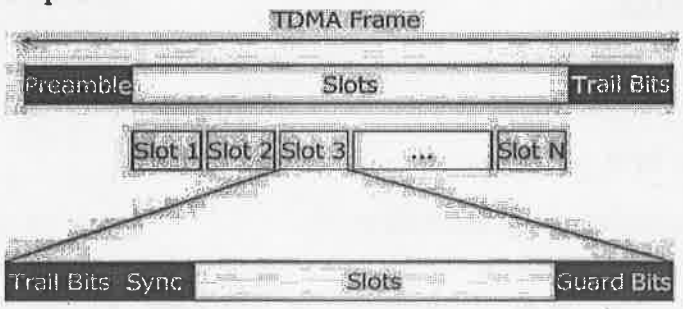
1. TDMA shares a single carrier frequency with several users where each users makesuse of non overlapping time slots.

2. The number of time slots per frame depends on several factors such as modulation technique, available bandwidth etc.

3. Data transmission in TDMA is not continuous but occurs in bursts. This results in low battery consumption since the subscriber transmitter can be turned OFF when not in use.

4. Because of a discontinuous transmission in TDMA the handoff process is much simpler for a subscriber unit, since it is able to listen to other base stations during idle time slots.

5. TDMA uses different time slots for transmission and reception thus duplexers are not required.



Code Division Multiple Access (CDMA):

In CDMA, the same bandwidth is occupied by all the users, however they are all assigned separate codes, which differentiates them from each other as shown in Figure.4. CDMA utilize a spread spectrum technique in which a spreading signal (which is uncorrelated to the signal and has a large bandwidth) is used to spread the narrow band message signal. Direct Sequence Spread Spectrum (DS-SS). This is the most commonly used technology for CDMA. In DS-SS, the message signal is multiplied by a

Advantages of MSK over QPSK.

- In QPSK the phase changes by 90degree or 180 degree .This creates abrupt amplitude variations in the waveform, Therefore bandwidth requirement of QPSK is more filters of other methods overcome these problems , but they have other side effects.
- MSK overcomes those problems. In MSK the output waveform is continuous in phasehence there are no abrupt changes in amplitude.

Quadrature Phase Shift Keying with neat diagram.

- Quadrature Phase Shift Keying (QPSK) has twice the bandwidth efficiency of BPSK,since 2 bits are transmitted in a single modulation symbol.
- The phase of the carrier takes on 1 of 4 equally spaced values, such as 0, $\pi/2$, π, $3\pi/2$ [or] $\pi/4$, $3\pi/4$, $5\pi/4$, $7\pi/4$. where each value of phase corresponds to a unique pair ofmessage bits.
- The QPSK signal for this set of symbol states may be defined as,

$$S_{QPSK}(t) = \sqrt{\frac{2E_S}{T_S}} \cos\left[2\pi f_c t + (i-1)\frac{\pi}{2}\right] \qquad \begin{matrix} 0 \le t \le T_S \\ i = 1,2,3,4 \end{matrix}$$

where Ts □ symbol duration and is equal to twice the bit period

S_{QPSK} can be rewritten as,

using $\cos(A+B) = \cos(A)\cos(B) - \sin(A)\sin(B)$

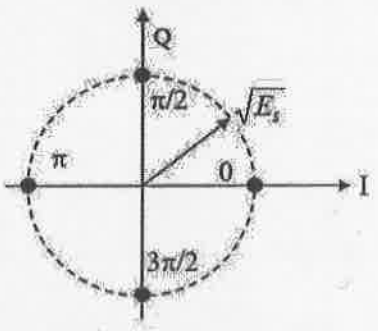
$$S_{QPSK} = \sqrt{\frac{2E_s}{T_S}} \cos(2\pi f_c t) \cos[(i-1)\frac{\pi}{2}] - \sqrt{\frac{2E_s}{T_S}} \sin(2\pi f_c t) \sin[(i-1)\frac{\pi}{2}]$$

If $\phi_1(t) = \sqrt{\frac{2}{T_S}} \cos(2\pi f_c t)$ and $\phi_2(t) = \sqrt{\frac{2}{T_S}} \sin(2\pi f_c t)$

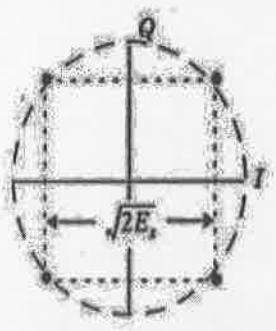
- Then, QPSK signal can be expressed as

$$S_{QPSK} = \sqrt{E_s} \cos[(i-1)\frac{\pi}{2}]\phi_1(t) - \sqrt{E_s} \sin[(i-1)]\frac{\pi}{2}\phi_2(t) \quad \text{for } i = 1,2,3,4$$

Constellation Diagram



(a) QPSK constellation where the carrier phases are 0, π/2, π, 3π/2;



(b) QPSK constellation where the carrier phases are π/4, 3π/4, 5π/4, 7π/4.

QPSK Receiver

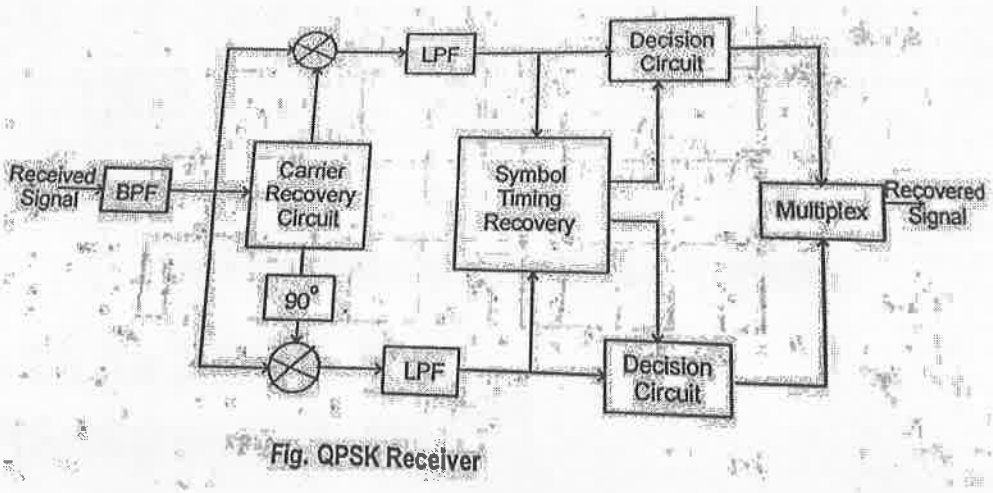


Fig. QPSK Receiver

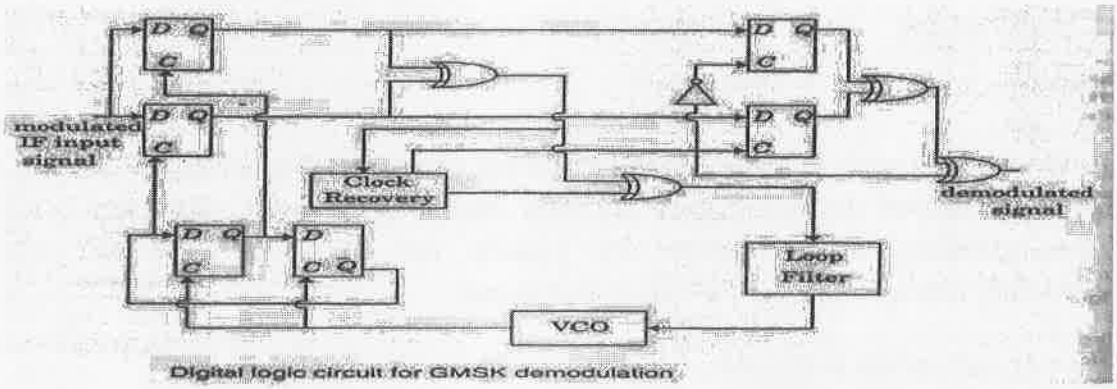
- The frontend band pass filter removes the out-of-band noise and adjacent channelinterference.
- The filtered output is split into two parts, and each part is coherently demodulatedusing the in-phase and quadrature carriers.
- The outputs of the demodulators are passed through decision circuits which generatethe in-phase and quadrature binary streams.
- The two components are then multiplexed to reproduce the original binary sequence.

Advantages of QPSK:

- Low error probability
- Very good noise immunity
- Reduced bandwidth
- High bit rate

Disadvantages of QPSK:

- Inter Channel Interference(ICI) is large due to side lobes.
- Only suitable for rectangular pulses.
- QPSK phase changes by 90^0 and 180^0.This creates abrupt amplitude variations in thewaveform.



Digital logic circuit for GMSK demodulation

3) Maximum likelihood sequence estimation

Frequency diversity

Correlation is increased by transmitting information on more than one carrier frequency. Frequencies are separated by more than one coherence bandwidth of the channel. So the signals will not experience same fades.

Linear and non-linear equalizer

Linear equalizer: the current and past values of the received signal are linearly weighted by the filter coefficients and summed to produce the output. No feedback path is used. Simple and easy to implement. Not suitable for severely distorted channel. Noise power signal is enhanced.

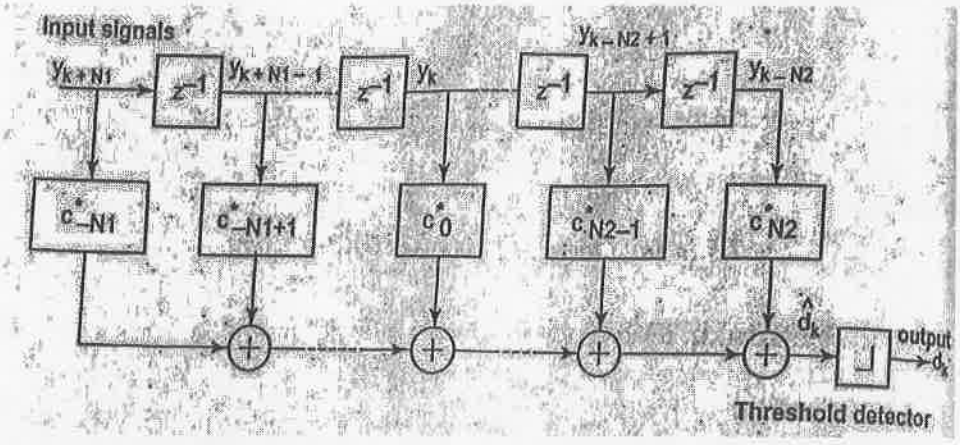
Nonlinear equalizer: If the past decisions are correct, then the ISI contributed by present symbol can be cancelled exactly, feedback path is used. Suitable for severely distorted channel. Noise power signal is not enhanced. Complex in structure. channels with lowSNR. Suffers from error propagation.

Linear equalizers.

- A linear equalizer can be implemented as an FIR filter, otherwise known as thetransversal filter. This type of equalizer is the simplest type available.
- In such an equalizer, the current and past values of the received signal are linearlyweighted by the filter coefficient and summed to produce the output.
- If the delays and the tap gains are analog, the continuous output of the equalizer issampled at the symbol rate and the samples are applied to the decision device.

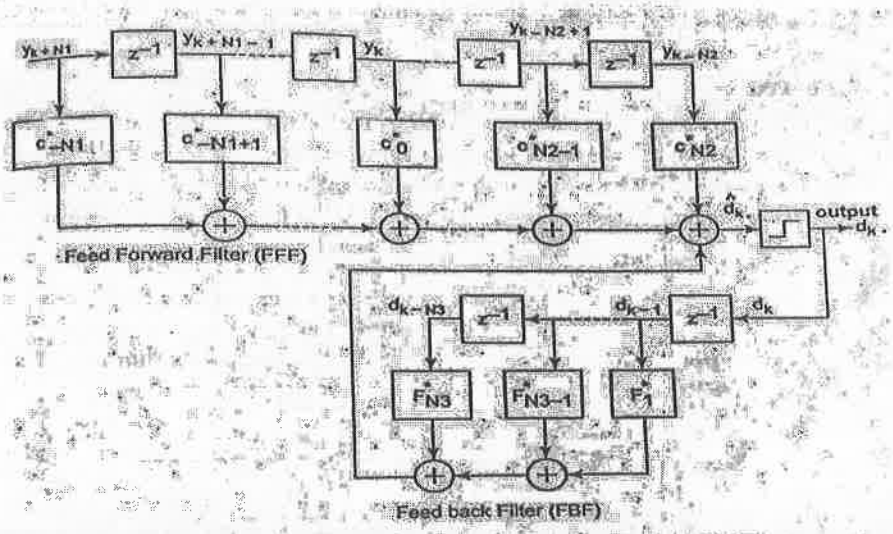
1) Linear Transversal Equalizer

- Implemented like FIR filter.



$$\hat{d}_k = \sum_{}^{N_2} (c^*_{-}) v_k$$

Error = Desired output – Actual output



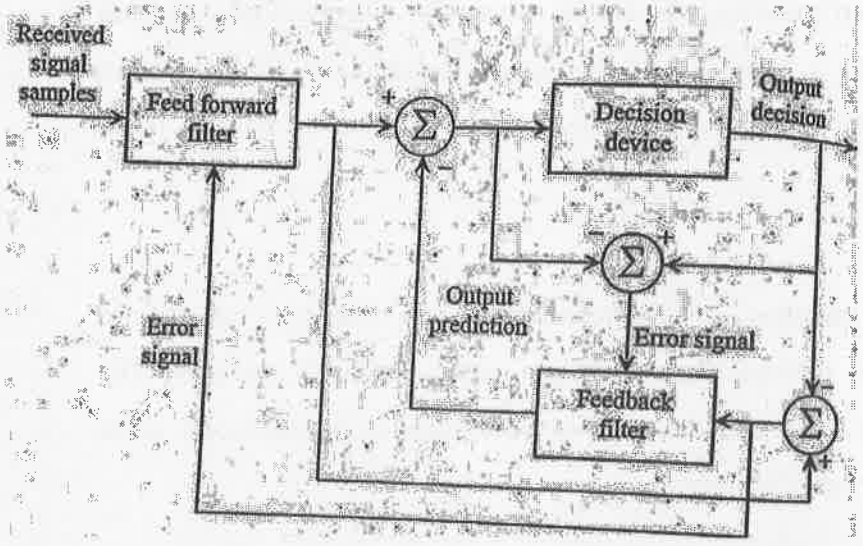
Structure of Decision Feedback Equalizer (DFE)

The equalizer has $N_1 + N_2 + 1$ taps in the feed forward filter
N_3 taps in the feedback filter

output can be expressed as,

$$\hat{d}_k = \sum_{n=-N_1}^{N_2} c_n^* y_{k-n} + \sum_{i=1}^{N_3} F_i^* d_{k-i}$$

(2) Predictive DFE:



Maximum Likelihood Sequence Estimation (MLSE) Equalizer

Spatial multiplexing working

Spatial multiplexing uses MEA's (Multiple element antennas) at the transmitter for transmission of data streams. An original high-rate data stream is multiplexed into several parallel streams, each of which is sent from one transmit antenna element. The channel mixes up these data streams so that each of the receive antenna elements sees a combination ofthem.

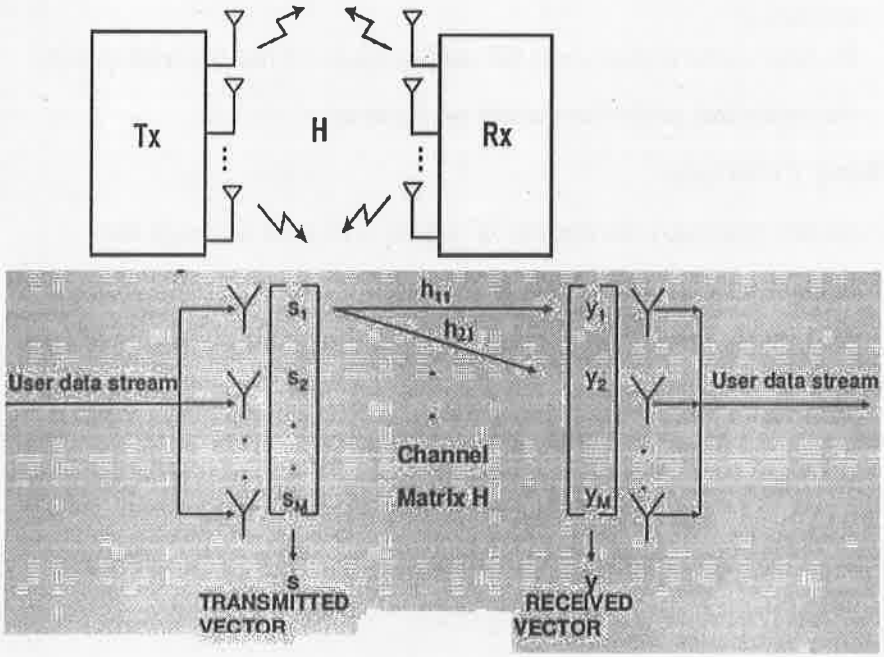
Advantages of MIMO systems.

- Multiple-input multiple-output systems can significantly enhance performance ofwireless systems through multiplexing or diversity gain.
- For a given transmit energy per bit, multiplexing gain provides a higher data rate whereas diversity gain provides a lower BER in fading.
- Support a higher data rate for a given energy per bit, so it transmits the bits morequickly and can then shut down to save energy.

System model of MIMO.

MIMO systems are systems with *Multiple Element Antennas* (MEAs) at *both*

transmitter and receiver. MIMO system offers high data rates and lower error rates.

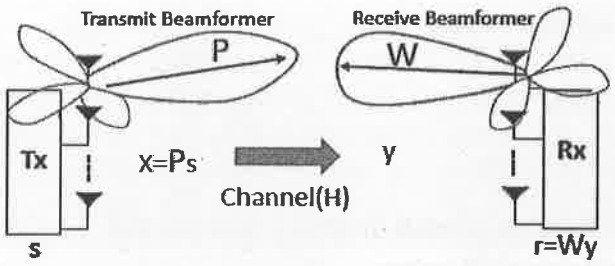


$$y = HS + n$$

$$H = \begin{matrix} \uparrow \\ M_R \\ \downarrow \end{matrix} \overbrace{\begin{bmatrix} h_{11} & h_{12} & \cdots & h_{1M} \\ h_{21} & h_{22} & \cdots & h_{2M} \\ \cdot & \cdot & \cdots & \cdot \\ h_{M1} & h_{M2} & \cdots & h_{MM} \end{bmatrix}}^{M_T}$$

Beam forming.

- Used in any antenna system, particularly in MIMO systems in order to create certainrequired antenna directive pattern to give required pcrformancc.
- Combination of radio signals from a set of small non-directional antennas to simulatea large directional antenna
- Smart antenna are normally used because it can be controlled automaticallyaccording to the required performance



(i) <u>Phased array systems</u>(PAS)

- Have number of predefined patterns
- The required one being switched according to the direction required

(ii) <u>Adaptive array systems</u>(AAS)

- Uses infinite number of patterns
- Adjusted based on the requirements in real time

- MIMO beam forming using phased array systems requires the overall system todetermine the direction of arrival of the incoming signals witch in the most appropriate beam
- Adaptive array systems able to direct the beam in the exact direction needed to movethe beam in real time

Working principle

- Sends the same signal over each transmit antenna with different scale factor.
- At the receiver , all the received signals are coherently combined using differentscale factor.
- Produces a transmit/receiver diversity system whose SNR can be maximized byoptimizing the scale factors(MRC).

Classification of Space Diversity

1) Selection diversity

summed up

- Individual signals must be co-phased before being summed which generally requiresan individual receiver and the phasing circuit for each antenna element
- MRC produces an output SNR which is equal to the sum of the individual SNRs.

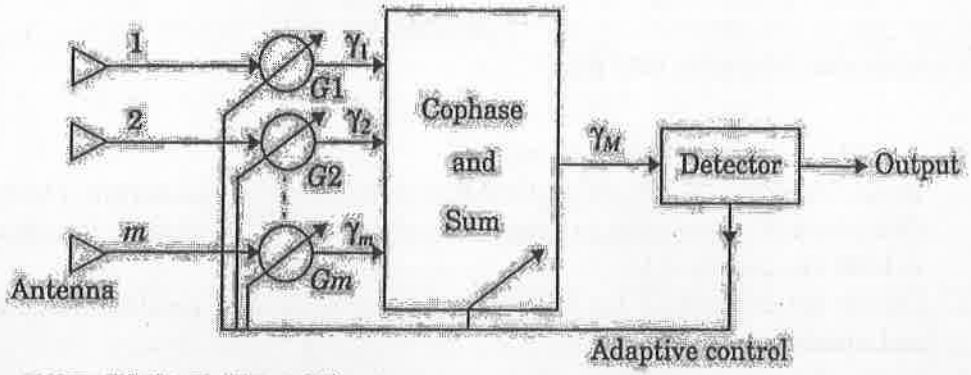


Figure 7.14 Maximal ratio combiner.

- Similar to MRC except that there will be an omission of the weighted circuits
- The branch weights are all set to unity but the signals from each branch are co-phasedto provide an equal gain combining diversity
- Allows the receiver to exploit the signals that are simultaneously received on eachbranch.

Equal Gain Diversity

- Similar to MRC except that there will be an omission of the weighted circuits
- The branch weights are all set to unity but the signals from each branch are co-phasedto provide an equal gain combining diversity
- Allows the receiver to exploit the signals that are simultaneously received on eachbranch.

UNIT IV

1. Explain the transmission of Transverse Electric waves between parallel perfectly conductingplanes with necessary expressions and diagrams for field components.
2. Deduce the expressions for the field components of TM waves guided along a rectangular waveguide
3. Derive the expressions for TM wave components in circular wave guides using Bessel function.
4. A rectangular air-filled copper guide with 0.9inch x 4 inch cross section and 12inch length is operated at 9.2GHz with a dominant mode. Find the cut-off frequency, guided wavelength, cutoff wavelength the phase velocity, the group velocity and the characteristics impedance.
5. Deduce the expressions for the field components of TM waves guided along a rectangular cavityresonator.

UNIT -V

1. Explain the process to compute the junction capacitance and the space charge region length of a pn junction semiconductor device.
2. Elaborate the construction and the functionality of the bipolar junction transistor.
3. Derive the drain saturation voltage and maximum saturation current for a field effect transistor.
4. Obtain the expression for unilateral power gain with necessary signal flow diagram.
5. Illustrate the design principles of RF amplifier and impedance matching with necessary diagrams.
6. (a) Write about the method used to design an integer N frequency synthesizer.
   (b) Determine the transfer function of a voltage controlled oscillator.

NSS ACTIVITY: COVID 19 AWARENESS PROGRAMME

The **"COVID-19 AWARENESS PROGRAMME"** was organized by our Principal, J.K.K. Munirajah College of Technology. As per the guidelines of UGC we conducted Covid-19 test for our all (UG&PG) students, teaching and non-teaching staffs on 13th September and 14th September 2021.

A medical officer from Erode medical college, perundurai and Primary Health centre from T.N. Palayam had conducted Covid-19 test in our college campus using RT-PCR Kit, nearly 340 samples had been tested.

A medical officer gave instructions to the students like common symptoms of Covid-19 which include cough, sneezing, running nose, etc. and also, we should wear the mask properly and maintain social distance.

The Covid-19 test result for their students had been received after two days for their registered mobile number and no persons were infected from Covid-19 positive.

Our NSS Students were participated in that Covid-19 awareness programme.

SSG21 ANDROID APP AWARENESS CAMPAIGN (22.10.2021&23.10.2021)

An awareness programme was held in our college campus from 22.10.2021 to 23.10.2021 for students regarding the Swachh Survekshan Grameen 2021 (SSG 21) android app.

This SSG 21 android app was launched by Ministry of Drinking water and Sanitation (MDWS) which intends to undertake SSG 21 to provide national ranking of all districts of India on the basis of Sanitation (Swachhata) parameters. This App aims to engage with citizens and solicit their feedback for improving the programme.This app was demonstrated by our District coordinator for our 600 students for installing SSG 21 App on their smart phones and explained them the benefits of taking this online survey. This programme was held in the presence of our respected Principal Dr.K.Sridharan M.E. Ph.D,Vice principal, Mr.K.Perumal, BDO, T.N. Palayam, Mr.D.Venkatesh, Dy, BDO, Zonal3, Mr.P.Thangamani, Dy, BDO, Zonal4, Mr.N.Prabhu,Block Coordinator, Swachh bharatMission,T.N.Palayam.

NSS ACTIVITY: NATIONAL CONSTITUTION DAY (OR)

SAMVIDHAN DIVAS (26.11.2021)

On behalf of National constitution Day or National Law Day on 26.11.2021.we celebrated National constitution Day in our college campus.

The ministry of Social and Empowerment on 19th November 2015 notified the decision of Government of India to celebrate the 26th day of November every year as "Constitution Day" to promote Constitution values among citizens.

On that day our students and staff members had taken "**Voters Pledge**" in our seminar hall at J.K.K.Munirajah College of Technology.The day aims to spread the importance of the constitution and to spread the thoughts and ideas of Dr. B.R. Ambedkar, the father of the Indian constitution.

On that day our volunteers and staff members were also participated in Constitution Day Preamble reading online event on 25th and 26th November 2021 and download their certificates.

Our all NSS and RRC students were participated in that programme.

NATIONAL SERVICE SCHEME

NSS ACTIVITY: NATIONAL VOTERS DAY(25.01.2022)

On behalf of "**NATIONAL VOTERS DAY**" 25th January, 2022 our College has organized a National voter's day Pledge on 4th February, 2022 in our college campus at J.K.K.Munirajah College of Technology.

The "**NATIONAL VOTERS DAY**"- was held in the presence of our respected Principal J.K.K.Munirajah College of Technology.

On that day our students and staff members had taken "**The Voter's Pledge**" in our seminar hall at J.K.K.Munirajah College of Technology.The day aims to spread awareness about the necessity of voting and to encourage the young generation towards voting rights.

Our YRC students and NSS students were participated in that various events conducted by our college.

8	Mr. PRAVEEN T	IV-EEE	MEMBER	
9	Ms. HARINI K V	IV-EEE	MEMBER	
10	Ms. KIRUTHIKA S	IV-CSE	MEMBER	

The following points were discussed in the Meeting

1. Discipline should be maintained by the students in the college campus.
2. Rules and regulation of the college were instructed to the first year students
3. Disciplinary action to be taken on students on the misconduct.
4. Our college Disciplinary Committee chairman Interacted with the first year students about facilities of our institution.

Disciplinary Committee Chairman welcomed the members of the Student Disciplinary and welfare Committee. He requested Member Secretary to brief on the agenda.

Point- 1

- Awareness for students of first year on discipline to be maintained in the college campus.
- The discipline to be maintained by the students of first year was discussed by the committee and it was decided to have awareness program during the induction program for first year students. All the members have agreed for the same.

Point- 2

- Discussion on disciplinary action to be taken on students on the misconduct.
- The committee discussed in-depth on the type of disciplinary action to be taken on the students in case of misconduct.

PRINCIPAL
JKK MUNIRAJAH COLLEGE
OF TECHNOLOGY
T.N. PALAYAM (Po)-638 506.
GOBI (Tk). ERODE (Dt).

- During discussion it was opined that initially if a student commit any in disciplinary action he should be warned. If the same mistake is committed by the student again then disciplinary action to be taken on the student depending on the misconduct. The disciplinary action should be such that it does not affect the career of the student.

Vote of thanks

As there were no other points for discussion Chairman thanked all the members for attending the meeting and suggesting their valuable inputs. With this the meeting was formally concluded.

PERSONALITY DEVELOPMENT COMMITTEE

ACADEMIC YEAR 2021-2022

INTRODUCTION:

Personality development committee of general science of J.K.K.Munirajah College of Technology aims to train the students in various aspects that would help in development of personality to meet the challenges in personal and professional life.

Personality development is a process of developing and enhancing one's personality. It helps an individual to gain confidence and high self-esteem. Personality development is also said to have a positive impact on one's communication skills and the way they see the world. Individuals tend to develop a positive attitude as a result of personality development. It grooms an individual and helps to make a mark of her own.

Personality development goes a long way in reducing stress and conflicts. It helps to develop a positive attitude in life and also helps an individual to inculcate positive qualities like punctuality, flexible attitude, willingness to learn, friendly nature, eagerness to help others.

VISION:

- To Provide Overall Personality Development Skills to the Students.

AIMS AND OBJECTIVES:

- Personality Development Club aims to make students understand their uniqueness, talents and skills.
- To develop Personality traits and behavioural skills for a healthy growth of the student.
- Acquire leadership qualities and democratic attitude.
- Develop competencies required for group living and sharing of responsibilities.

RESEARCH AND DEVELOPMENT

COMMITTEE

J.K.K. MUNIRAJAH COLLEGE OF TECHNOLOGY

Approved by AICTE , New Delhi And Affiliated to Anna University , Chennai.

T.N.Palayam (Po), Gobi (Tk), Erode (Dt) – 638 506.

RESEARCH AND DEVELOPMENT COMMITTEE

ACADEMIC YEAR 2021-2022:

VISION:

- Vision "Ideate, Invent and Innovate propositions with enduring value to ecosystems"

MISSION:

- To inculcate research oriented approach to the future generation through research, scholarship, education, preservation, and excellent academic practice that can serve all sectors of society.
- To carry out free exchange of ideas in an ethical, interdependent, and diverse community of faculty, students, and alumni.

OBJECTIVES:

- To encourage and promote cutting-edge research based on the proven capabilities and expertise of our faculty and students.
- To help facilitate strengthening of the Institute's research capabilities; proactively promote basic research and monitor quality of research work done.

FUNCTIONS:

- To create zeal amongst students and faculty members towards research and innovation.
- To create centres of research in various areas of research.
- To work closely with the industrial needs that eventually will result in new or improved products, processes, systems or services that can increase the company's productivity.

PRINCIPAL
JKK MUNIRAJAH COLLEGE
OF TECHNOLOGY
T.N. PALAYAM (Po)-638 506.
GOBI (Tk), ERODE (Dt).

- To foster collaborations for mutual benefits and to maximize industrial connectivity.
- To establish collaboration with other universities, public and private sectors and identify R&D projects including consultancy services which could be undertaken at the institution.
- To promote research in various departments of the Institute.
- To ensure smooth functioning and effective management of R&D at the institution.

RESPONSIBILITIES:

- The committee shall promote research and development activities by motivating students and members of faculty for publishing research papers
- Motivating them to get patents for their works
- To organize regular seminars and workshops on emerging trends and technologies with a special focus on innovations
- To organize regular industrial trainings for the students commensurate with market needs.
- To organize regular industrial visits for the students.
- To organize conference on innovations every year.

T.N.Palayam (Po), Gobi (Tk), Erode (Dt) – 638 506.

Functions of the R&D Consultancy & External Funded Projects Cell:

- Identify the new and emerging areas in engineering research and motive faculty and students carry out research in those areas and help them to identify the funding agencies that support their research/projects.
- A research and development cell is responsible for innovations in technical and managerial pedagogies. This R & D is creating innovative application of ideas to keep institute a step ahead in the competition. Many institutes are also relying on the R&D cell to explore new ways of professional education.
- Interact with national prominent research institutes and industry for collaborative research projects.
- Institute is thriving to succeed by creating quality education as well as by increasing institute's credibility through cost-efficient methods. In this process our research and development cell is primarily responsible for ensuring that these activities are met.
- Research and development works closely with the interdisciplinary approach which is lined with latest trends by surveying and researching student's demands, imparting modern methods and the existence of technology across the relevant social requirements. The research and development cell gathers all the data, and makes this information available to the analysis, which will take action in response to the findings and proceed to keep the institute on top of current social needs.
- Form research groups in every department to have a meaningful research contribution by the faculty and students.

REPORTS

WORLD PHOTOGRAPHY DAY

Photography is the art,application and practice of creating durable images by recording.

"In photography, there is a reality so subtle that it becomes more real than reality" , ALFRED STIEGLITZ.

World Photography day is a day whereby we pay tribute to the incredible art form that is photography.There are those personal photos that we all love and cherish,but there are also photos tell a story.They tell us about significant periods in time or enable us to learn more about the planet.

RANGOLI

Rangoli is a form of traditional decorative art that originated in the state of Tamilnadu. It is basically a geometrical drawing composed of straight lines,circles,dots,curves and loops.

These are made for special or auspicious occasions like festivals. Apart from their cultural value, it also adds character to the venue

LIGHTING OF KUTHUVILAKU

The Lamps we light every day are different from the ones we light on auspicious days.While kuthu vilakku is lit to signify the beginning of any event or occasion.

Lighting of Kuthu vilaku signifies the three Gods Bramha,Vishnu and Shiva who are believed to be present in the Vilakku. The glow of the Vilakku is represented as Goddess Lakshmi, the Light by Goddess Saraswati and the Heat by Goddess Parvathi.

GRIEVANCES REDRESSAL CELL

GRIEVANCE REDRESSAL COMMITTEE

SCOPE

The Grievance Redressal Committee shall consider only individual grievances of specific nature of staff and students of the Centre raised. Grievance Redressal Cell (GRC) aims to look into the complaints lodged by any student and redress it as per requirement. The students can state their grievance regarding any academic and non-academic matter within the campus through the online and grievance/ suggestion box.

The institution aims at solving the grievances of the students within stipulated academic and non- academic matter within Lee campus through the online and grievance/ suggestion box. The institution aims at solving the grievances of the students within stipulated time.

The Grievance Redressal Committee shall not consider any grievance of general applicability or collectively raised by more than one employee/student. Committee will decide on the merit of case regarding scope of further discussion. Post receipt of the complaint/application the committee will decide on the merit of case regarding scope of further discussion investigation and act promptly.

The GRC may mediate between complainant and defendant against who the complaint has been made, it required. GRC shall consider redressing of grievances within a reasonable time. The cell will give report to the authority about the cases attended to and seek guidance from the higher authorities if required.

PROCEDURE, PERIODICITY AND ATTENDANCE AT MEETINGS

The Grievance Committee will meet as and when required.

The Grievance Committee may meet more frequently at the instance of the Chairman or at the request of the other members to discuss the various issues received.

At least three members of the Grievance Committee shall be present in a meeting.

ANTI SEXUAL HARASSMENT CELL

As per the guidelines of Anna university anti-sexual harassment cell has been established by JKKMCT campus to provide a healthy and congenial atmosphere to the staff and students of college.

This includes all forms of gender violence, sexual harassment and discrimination on the basis of sex/gender this also meets the obligation as mandated by the supreme court of India in its landmark judgement in august 1997 viz vishaka& others which stated that every instance of sexual harassment is a violation of fundamental rights under articles 14,15 and 21 of constitution of India and amounts to a violation of the right to freedom under article 19(1)(g). This judgment makes it obligatory for every employer and other responsible reasons to follow the guide lines laid down by the court and to evolve a specific policy to combat sexual harassment in the work place.

ROLE OF CELL

Prevent discrimination and sexual harassment against women, by promoting gender amity among students and employees.

Deal with cases of discrimination and sexual harassment against women in a time bound manner, aiming at ensuring support services to the victimized and termination of the harassment.

To ensure the appropriate action is taken against the offender. To ensure that victims and witness are not victimized or discriminated because of their complaint. To take protective measures towards sensitization of the working and learning community on gender issues so that the university is an excellent work place for all. Recommend appropriate punitive action against the guilty party of cell.

PRINCIPAL

GOBI (Tk), ERODE (Dt).

PROCEDURE FOR APPROACHING CELL

The cell deals with issues relating to sexual harassment at the RVS technical campus. It is applicable to all students staff and faculty. A complaint of discrimination of sexual harassment may be lodged by the victim or a third party. A written complaint may be addressed to the convener of the committee. If the complaint is made to the principal or any of the committee members they may forward it to the convenor of the committee against sexual harassment. Here it should be noted that according to the supreme court guidelines sexual harassment can be defined as "unwelcome" sexually determined behavior (whether directly or by implication) as:

Physical contact and advances; demand or request for sexual favours; Sexually collared remarks; showing pornography. Other unwelcome physical, verbal or non verbal conduct of a sexual nature(vishaka judgement by supreme court)The following is also sexual harassment and is covered by the committee

• Eve-teasing/ unsavory remarks Jokes causing or likely to cause awardness or embarrassment Innuendos and taunts, gender based insults or sexist remarks Unwelcome sexual overtone in any manner such as over telephone Touching or brushing against any part of the body and the like.

• Displaying pornographic or other offensive or derogatory cartoons, pamphlets or sayings

• Forcible physical touch or molestation and physical confinement against ones will and any other set likely to violate ones privacy any other act likely to violate ones privacy What to do if you feel you are being sexually harassed

Know your rights-sexual harassment is illegal, both the law of the land and UoH prohibit sexual harassment

Speak up try telling the person to stop. State clearly and firmly that you want a particular behaviour to cease Get information and support- if you feel you cannot speak u ask your friends to help you and bring it to the notice of the college authorities without further loss of time Keep records that might be useful for pursuing the case.

INTERNATIONAL DAY FOR THE ELIMINATION OF VIOLENCE AGAINST WOMEN

REPORT OF THE EVENT

Name of the programme/Activity : Invited talk on "**International Day for the Elimination of Violence Against Women**".		
Organised by :Women Empowerment Cell		
Date : 25/11/2021	**Time: 2.30 pm to 4.30 pm**	**Total Participants** :175

Resource person / Guest / Chief Guests :

S.No.	Name of the Resource Persons	Designation	Institution & Place
1.	Mrs. A.IndiraniSobhiya	Inspector of Police	AWPS, Sathyamangalam
2.	Mrs.A.J.Kalamani	Head Constable	AWPS, Sathyamangalam
3.	Mrs. Priyadharshini	Head Constable	AWPS, Sathyamangalam

Education is the key for women to achieve economic independence. Although women in the majority of countries have the right to an education, equal access to education for women remains a problem.

In developing and developed countries alike, millions women do not finish school because they are forced (by their society, by their circumstances or by the threat of violence) to focus on household, care giving and child-rearing responsibilities.

Ultimately, success is all about taking your shot, over and over again. Sometimes you may win, sometimes you will definitely lose, but the more things you try, the more chances you have of succeeding. Put the power of numbers on your side. Take as many shots as you

PRINCIPAL
JKK MUNIRAJAH COLLEGE
OF TECHNOLOGY

can. There's no guarantee of success, but when you don't take a shot, there's a definite guarantee of failure.

Violence against women and girls takes many different forms, including domestic violence, sexual assault and harassment, child, early and forced marriage, sex trafficking, so called 'honor' crimes and female genital mutilation. It is rooted in the gender inequality that women face throughout their lives from childhood through to old age.

The programme was organized by Women Empowerment Cell on 25.11.21 from 2.30 pm to 4.30 pm, the chief guest Mrs.A.IndiraniSobhiya, Inspector of Police, AWPS, Sathyamangalam, Mrs.A.J.Kalamani Head Constable, Sathyamangalam, Mrs.Priyadharshni Head Constable, Sathyamangalam, gave motivational speech for students to protect themselves against violence in our society. It was highly useful and energetic for students.

ENTREPRENEURSHIP DEVELOPMENT CELL

INTRODUCTION

The Entrepreneurship Development Cell (EDC is all about creating & providing platform to all the persons, who all wants to be emerging entrepreneurs. ED-cell is about influencing young persons to lead our world economy for better future. In view of the worldwide shortage of jobs (both government and private sectors) leading to unemployment problems and lack of proper utilization of human resources the cell strives to identify talented youth to entrepreneurial works. The cell plans to organize various programs regarding entrepreneurship development.

OBJECTIVES OF THE CELL

(a) To create awareness among the students of the Institution regarding entrepreneurship as a career option.

(b) Provide advisory guidance services to the first time Entrepreneurs

(c) To develop entrepreneurship related course curriculum can learn important business skills like leadership, time management, financial planning, negotiation, research, etc.

EVENT	Seminar
Title	Leadership Qualities
Date	24.01.2022
No of participants	~~39~~ 53
Venue	Seminar Hall JKKMCT
Speaker	Mr.G.Swubramaniam B.E., MD, Pragati Circuits Pvt. Ltd, Ganapathy, Coimbatore

Report of the event :

Everybody defines leadership differently but I really like the way John C Maxwell defines leadership, "A leader is one who knows the way, goes the way, and shows the way." Irrespective of how you define a leader, he or she can prove to be a difference maker between success and failure.

A good leader has a futuristic vision and knows how to turn his ideas into real-world success stories. In this article, we take an in-depth look at some of the important leadership qualities that separate good leaders from a bad one. "The supreme quality of leadership is unquestionably integrity. Without it, no real success is possible, no matter whether it is on a section gang, a football field, in an army, or in an office.

Honesty and integrity are two important ingredients which make a good leader. How can you expect your followers to be honest when you lack these qualities yourself? Leaders succeed when they stick to their values and core beliefs and without ethics, this will not be possible. To

GOBI (Tk), ERODE (Dt).

be an effective. Leader, you should be confident enough to ensure that other follow your commands. If you are unsure about your own decisions and qualities, then your subordinates will never follow you. As a leader, you have to be oozing with confidence, show some swagger and assertiveness to gain the respect of your subordinates. This does not mean that you should be overconfident, but you should at least reflect the degree of confidence required to ensure that your followers trust you as a leader.

SC/ST CELL

CASTE BASED DISCRIMINATION MONITORING COMMITTEE

The Scheduled Caste (SC) and Scheduled Tribes (ST) Cell in the institute promotes the special interests of students in the reserved category and guides the students to utilize the benefits of the schemes offered by the Government. The SC/ST cell in JKK Munirajah College of Technology adheres to the guidelines of the UGC and state government with respect to the upliftment of the students and employees belonging to the SC/ST categories and other weaker classes. They are also encouraged to enroll for career orientation programs, which would equip them with the necessary skills to choose a career option.

Objectives:-

1. To provide special inputs in areas where the students experience difficulties.

2. To organize interactive sessions and informal meetings with students to address their personal, social and academic problems.

3. To conduct / co-ordinate training programs for students in life skills and personality development to help in their placement

4. To review follow up measures taken to achieve the objectives and targets laid down by the Govt. of India and the UGC.

5. To circulate State Govt. and UGC's decisions about different scholarship programs.

6. To communicate with the students and motivate them for better future planning.

7. To facilitate SC/ST students to avail the Scholarships offered by the Government.

8. To conduct remedial coaching classes for the students (priority to SC/ST) for their academic improvement.

9. To constitute "Caste Based Discrimination Monitoring Committee" to execute the functions and achieve the objectives of the SC/ST Cell
