Entrepreneurship Development Programme (EDP) is a programme which helps in developing entrepreneurial abilities. The skills that are required to run a business successfully is developed among the students through this programme.

Sometimes, students may have skills but it requires polishing and incubation. This programme is perfect for them.

This programme consists of a structured training process to develop an individual as an entrepreneur. It helps the person to acquire skills and necessary capabilities to play the role of an entrepreneur effectively.

Students from various branches of Engineering enrolled themselves into 13 batches and actively participated in the programme. The contest was held between 11.30 am to 1.30 pm at SEMINAR Hall (Ground floor). Dr.K.Sridharan, Principal inaugurated the contest and E.R.Vadivel, Head of the Department / Master of Business Administration.

EDP is an effort of converting a person to an entrepreneur by passing him through thoroughly structured training. An entrepreneur is required to respond appropriately to the market and he/she is also required to understand the business needs. The skills needed are varied and they need to be taken care in the best possible way. EDP is not just a training programme but it is a complete process to make the possible transformation of an individual into an entrepreneur. This programme also guides the individuals on how to start the business and effective ways to sustain it successfully.

ENTREPRENEURSHIP DEVELOPMENT PROCESS:

The below-mentioned steps will illustrate how to build an effective entrepreneurship development program for an entrepreneur to organize and launch the new ventures.

- **Discover:**

Any new process begins with fresh ideas and objectives, wherein the entrepreneur recognizes and analyzes business possibilities. The analyzing of opportunities is a risky task, and an entrepreneur looks out for inputs from other persons, including channel partners, employees, technical people, consumers, etc. to reach an ideal business opportunity.

- **Evaluation:**

The evaluation of an opportunity can be done by asking several questions to oneself. For instance, questions like whether it is worth taking a chance and investing in the idea, will it attract the consumer, what are the competitive advantages and the risk linked with it are asked. A reasonable and sensible entrepreneur will also analyze his skills and whether it matches his entrepreneurial objectives or not.

- **Developing a plan:**

After the identification of an opportunity, an entrepreneur has to build a complete business plan. It is the most important step for new business as it sets a standard and the assessment criteria and sees if a company is working towards the set goals.

- **Resources :**

The next step in the process of entrepreneurial development is resourcing. Here, the entrepreneur recognizes the source of finance and from where the human resource can be managed. In this step, the entrepreneur also tries to find investors for his new business.

- **Managing the company:**

After the hiring process and funds are raised now its time to start the operation to accomplish the desired goals. The entire entrepreneur will decide on the management structure that will be assigned to resolve the operational problems whenever it occurs.

- **Harvesting:**

The last step in this process is harvesting, where an entrepreneur determines the future growth and development of the business. Here, real-time development is compared with the projected growth, and then the business security or the extension is initiated accordingly.

4. WOMEN'S DAY CELEBRATION

Event Organized by	Women's Empowerment Cell of JKKMCT
Name of Event Organized	WOMEN'S DAY CELEBRATION
Date of the Event	08.03.2022
Venue	Seminar Hall

International Women's Day is almost here and it is celebrated to recognize, acknowledge and celebrate the achievements of women in all spheres of life, be it social, political, economic, domestic or cultural. The day which is celebrated on 8 March, is preceded by week long celebrations which are collectively called Women's Week.

Women's week is based on five major factors that seek to empower women in every way possible and include building relationships, self-knowledge, healthy self-image, leadership development and sexual assault and interpersonal violence. These five factors are integral to Women's lives and development of a global scenario that facilitates women's well-being and equal status in the society.

Women's day celebrated in our college on 8th March 2021. Programme was organized by Mrs.V.Mohanapriya (HOD/CIVIL - Women's Empowerment Cell I/C) We invited our Chief Guest Mrs.Nagasanthoshini,B.Com,LLB (Advocate)who completed law and currently in the service.

Prayer is the raising of one's mind and heart to God or the requesting of good things from God. It is better in prayer to have a heart without words than words without heart.

Whether we realize it or not, prayer is the encounter of God's thirst with ours. We started our function with prayer song.

All ceremonies, daily worship rituals, auspicious functions, religious occasions as well as new ventures start with lightning of the lamp. Diya is essential in Hinduism because it signifies purity, goodness, good luck and power.

Photo of Speech Delivered By Mrs. Naga Santhoshini

For many people, the role of women is limited to household chores only. However, this needs to change as women deserve equal freedom and opportunities in everything like men. The world is moving towards gender equality. It is moving towards a balance between both men and women. A change is required and is also essential. It is observed that men have had more advantages in every sphere of life in comparison to women since ages.

Prevention of discrimination against women, equal rights to men and women, women empowerment, equal share in ancestral property etc are some of the issues facing the Indian society. The growing awareness of the necessity to grant equal rights to women and daughters have compelled the legislature to amend the laws governing the rights of women and daughters as regards their share in the ancestral property.

PROFESSIONAL ETHICS & HUMAN VALUES IN CURRICULUM

Basic human values refer to those values which are at the core of being human. The values which are considered basic inherent values in humans include truth, honesty, loyalty, love, peace, etc. because they bring out the fundamental goodness of human beings and society at large. In our college all the final year students learning one paper about professional ethics.

Importance of Human Values

- Provides understanding of the attitudes, motivation and behaviors
- Influences our perception of the world around us
- Represents interpretation of "right and wrong"
- Provides a way to understand humans and organization
