

2022-2023

PROGRAM OBJECTIVES

1. Excellent vehicle repair skills with a wide range of automobiles as well as excellent communication.
2. Exhibit strong problem-solving skills when dealing with complex repair situations.

PROGRAM SCHEDULE:

- Day 1:**(12.9.2022) Fundamental principles of sustainability explanation
- Day 2:** (13.9.2022) Manual handling techniques
- Day 3:** (14.9.2022) Identify basic automotive faults using troubleshooting processes
- Day 4:** (15.9.2022) Test various electrical/ electronic components using proper measuring instruments
- Day 5:** (16.9.2022) . Demonstrate basic mathematical concept and principles to perform practical operations
- Day 6:** (17.9.2022) Troubleshoot vehicle Engine components and ascertain repair.

ABOUT THE PROGRAM

Learn and live

"Anyone who stops learning is old, whether at twenty or eighty. Anyone who keeps learning stays young. The greatest thing in life is to keep your mind young".

The Certificate Program aim to provide additional learner centric graded skill oriented technical training, with the primary objective of improving the employability skills of engineering students.

CERTIFICATE PROGRAM IN

“ LIGHT VEHICLE MECHANICAL TECHNOLOGY ”

12th to 17th Sep 2022

Organized by

Auto Department

ABOUT THE COLLEGE

K.K. Munirajah college of Technology was established in the year 2008 Governed by Annai J.K.K.Sampoorani Ammal Charitable Trust, primarily with the objective of delivering world class quality in Education and Training in a structured and systematic manner J.K.K. Munirajah group of institutions was founded by J.K.K.Munirajah, who is a reputed industrialist, technocrat, an educationalist par excellence, an avid social worker, a person imbued in deep spiritual values and a philanthropist. The management has completed 25 years of dedicated service to the people of India and abroad in the field of Education. The Institution has an area of 250 acres of land richly endowed with beautiful Greenland. The college with its state-of- the- art infrastructural facilities and excellent academic records has earned recognition as one of the reputed educational institutions for men and women in India.

ABOUT THE DEPARTMENT

The department of automobile engineering was established in 2013 to train the students in the area of automobile engineering, the automobile is the various cities in the hub of india, with ford, hyundai, BMW, ashok Leyland and others, this course gains significance for those who are passionate about automobiles.

To give students a broad exposure in the design, development and testing of automobiles. Furthermore, the program trains them to meet the technological challenges and diverse needs of the industry and society in various areas of automobile engineering and equips them to excel in a truly competitive industry.

PROGRAM OBJECTIVES

BUILDING INFORMATION MODELING has certainly offered a consistent and coordinated model-based approach to construct a building as per the design ideas.

students can access information from the building design database at any point in time and keep a tab on the documentation process related to the construction of the building structure as per the designs

One of the key learning outcomes that you after taking the BUILDING INFORMATION MODELING course is that you learn how to scan the Steel models for any type of collisions or any signs of collisions in the building even before its construction

GRAM SCHEDULE:

- 1: BIM's extent and various application
- 2 : Hostel room or a Master bed room.
- PROJECT- Office Building
- 3: Time saving factor using 3D skills. Cross check in quick Revit analysis/SAP
- 4: Estimation of quantities. Basics of foundation and column
- 5: PROJECT-Duplex bungalow- Evaluation
- 6: PROJECT-Duplex bungalow- Evaluation

ABOUT THE COURSE

Learn and live

"Anyone who stops learning is old, whether at twenty or eighty. Anyone who keeps learning stays young. The greatest thing in life is to keep your mind young".

The certificate program on aim to provide additional learner centric graded skill oriented technical training, with the primary objective of improving the employability skills of engineering students.

ABOUT THE COLLEGE

J.K.K. Munirajah college of Technology was established in the year 2008 Governed by J.K.K.SampooraniAmmal Charitable Trust, primarily with the objective of delivering world class quality in education and Training in a structured and systematic manner. J.K.K. Munirajahgroup of Institutions was founded by J.K.K.Munirajah, who is a reputed industrialist, democrat, an educationalist par excellence, an avid social worker, a person imbued in deep spiritual values and a philanthropist. The management has completed 25 years of dedicated service to the people of India and abroad in the field of education. The Institution has an area of 250 acres of land fully endowed with beautiful Greenland. The college with its state-of-the-art infrastructural facilities and excellent academic standards has earned recognition as one of the reputed educational institutions for men and women in India.

Morandum Of Understanding:

- HCL Technologies
- BSNL for Training and Recruitment.
- HP for Training and Recruitment.

ABOUT THE DEPARTMENT

J.K.K. Munirajah college of Technology has The Civil Engineering Department was started in 2011 with the primary objective to disseminate the knowledge above latest technologies in Civil Engineering to the students so that they meet the demand of builders/contractors and construction industry in and around the world. The educational objectives are designed to produce competent engineers as to the needs of the country and to contribute effectively to the advancement of civil engineering causes to accommodate the needs of the community. The department has well equipped classrooms & labs. Classes are spacious, well furnished & well ventilated for providing a good environment for students for learning.

PROGRAM CONTENTS

CHAPTER I

- Introduction to BIM modeling
- The need and scope of with live examples
- Ergonomic data and its application

CHAPTER II

- Applying learnings to a bigger scale hotel/at scheme/hostels
- Incorporation of site factors

CHAPTER III

- Realistic approach road and building bye-laws
- The magic of Importing previous plans & reorient them to achieve larger scale in no time

CHAPTER IV

- Prepare specifications in BIM
- Estimating all the quantities in a very short time.
- Layer wise calculation for pipelines, electrical ducts, AC units, etc

CHAPTER V

- Introducing structural layers for design
- Cross-check with foundation calculation & column orientation
- Data and record for the 3D design of individual aspects for the next level.

PROGRAM OBJECTIVES:

- ✓ Develop a sustainable infrastructure for specific applications and ensure high scalability.
- ✓ Establish an environment where releasing more reliable applications faster and more frequently can occur
- ✓ Emphasizes the integration of diverse systems and tools within an organization's software development and deployment pipeline

PROGRAM SCHEDULE:

Day1:(22-08-2022) Introduction to Advanced DevOps

Day2:(23-08-2022) Containerization and Orchestration

Day3:(24-08-2022): Continuous integration/ Continuous Deployment (CI/CD) Pipelines

Day 4: (25-08-2022) Infrastructure as Code

Day 5: (26-08-2022) Monitoring, Logging, and Observability

Day 6: (27-08-2022) Security in DevOps

The Institution has an area of 250 acres of land richly endowed with beautiful Greenland. The college with its state-of- the- art infrastructural facilities and excellent academic records has earned recognition as one of the reputed educational institutions for men and women in India.

ABOUT THE DEPARTMENT

The J.K.K. Munirajah college of Technology has The Computer Science Engineering Department was started in 2008 with the primary objective to disseminate the knowledge above latest technologies in computer technology to the students. Computer technology has become an integral part of our daily life. It is the most important element in the education of students at the present and the future era. Computer Technology has revolutionized society to a great extent. Technological advancements are so rapid in this field that continual learning is essential to keep the skill set of students up to date. Also, the department strives hard in improving the communication skills, technical and analytical skills of our students through various programs, so that they could compete in the global front. We focus on bridging the gap between campus education and industry needs through internships, guest lectures and workshops.

COURSE CONTENTS

- DevOps focuses on the speed with which organizations deliver IT services by adopting agile and flexible practices as part of a systems-oriented approach.
- DevOps is a culture that allows the development and the operations team to work together.
- DevOps practices must address these challenges by incorporating robust infrastructure provisioning, automated data validation, real-time monitoring, and efficient deployment strategies.

PROGRAM OBJECTIVES

- Demonstrates various platforms across hybrid cloud deployments, along with built-in manageability and integration with the broader Red Hat management and automation portfolio.
- Red Hat Enterprise Linux offers the flexibility of open source code and the innovation of open source communities, along with certifications from hundreds of public cloud and service providers.

PROGRAM SCHEDULE:

Day1:(05-09-2022) Red Hat Linux File systems and Disk Management

Day2:(06-09-2022) Networking and Security Enhancements

Day3:(07-09-2022): Interactions

Day 4: (08-09-2022) Transform the data

Day 5: (09-09-2022) Advanced visualizations

Day 6: (10-09-2022) Data Storytelling

PROGRAM CONTENTS

- Introduction to FinFET Technology
- FinFET Characteristics and Modeling
- FinFET Circuit Design and Applications of FinFETs in analog and digital circuits
- FinFET Scaling, and system-on-chip (SoC) designs
- Importance of low-power circuit design in FinFET technologies
- Principles of advanced low-power design strategies in FinFET technologies
- Techniques for minimizing power consumption in digital and analog circuits with advanced semiconductor technologies
- Simulation exercises focusing on low-power techniques with FinFETs
- Analyzing the impact of component selection on power efficiency in advanced semiconductor designs
- Overview of simulation tools specific to advanced semiconductor technologies for analyzing and validating power performance
- Hands on project

COURSE OBJECTIVES

1. To provide students an understanding of the expectations of the industry.
2. To improve employability skills of engineering students.
3. To bridge the skill gaps and makes the students.
4. To provide an opportunity to students to develop the Interdisciplinary skills.

COURSE SCHEDULE:

Day 1:(12/09/2022) Introduction to Wireless Power Transfer System

Day 2:(13/09/2022) Study of WPTS technologies, Coil Design of Wireless Power Transfer Systems

Day 3:(14/09/2022) Core structures for WPTS

Day 4:(15/09/2022) Power Supply for WPTS

Day 5:(16/09/2022) Implementation of WPTS

Day 6:(17/09/2022) On-Line Electrical Vehicle (OLEV)

- Coil Design of Wireless Power Transfer Systems (WPTS)
- Core structures for WPTS
- Resonant topologies of WPTS
- Power Supply for WPTS

PROGRAM OBJECTIVES

1. Gain knowledge in temperature-dependent properties of hydrogen for design and simulation.
2. Obtain a consolidated overview of cryogenic hydrogen production, storage, transportation, and end use.
3. Develop skills in handling cryo-hydrogen with necessary precautions.
4. Acquire expertise in system-level and component-level simulation of hydrogen.
5. Enhance understanding of cryogenic processes for comprehensive utilization of hydrogen.

PROGRAM SCHEDULE:

Day 1:(19.09.2022) An Overview of Hydrogen Technology

Day2:(20.09.2022) Thermodynamics of Electrolytic Hydrogen Production

Day 3:(21.09.2022) Overview of Cryogenic Liquefaction Cycles

Day 4: (22.09.2022) Liquefaction of Hydrogen, Problems

Day 5: (23.09.2022) Storage and Transfer of Liquid Hydrogen

Day 6: (24.09.2022) Gasification of Hydrogen, Hydrogen As Fuel

PROGRAM CONTENTS

1. Demonstrate knowledge in temperature-dependent properties of hydrogen for system and component-level design and simulation.
2. Exhibit a consolidated understanding of cryogenic hydrogen production, storage, transportation, and end-user applications.
3. Apply acquired knowledge to handle cryo-hydrogen with necessary precautions.
4. Analyze and assess the design and simulation aspects of hydrogen systems and components.
5. Evaluate the entire process of cryogenic hydrogen utilization from production to end use.

PROGRAM OBJECTIVES:

- To achieve business growth and success through strategic online promotion and engagement
- Demonstrate a marketing plan that aligns with the business goals and customer requirements
- Effectively managing a marketing strategy contains the company's value proposition, key brand messaging, data on target customer demographics, and other high-level elements.

PROGRAM SCHEDULE:

Day1:(12-09-2022) Introduction to Digital Marketing for Engineers

Day2:(13-09-2022) Crafting a Marketing Strategy for Engineering Innovations

Day3:(14-09-2022): Content Creation and Optimization for Technical Audiences

Day 4: (15-09-2022) Social Media and Community Engagement for Engineers

Day 5: (16-09-2022) Data Analytics and Performance Measurement in Engineering Marketing

Day 6: (17-09-2022) Developing and Presenting a Digital Marketing Campaign for an Engineering Innovation

ABOUT THE COLLEGE

J.K.K. Munirajah college of Technology was established in the year 2008 Governed by Annai J.K.K.Sampoorani Ammal Charitable Trust, primarily with the objective of delivering world class quality in Education and Training in a structured and systematic manner J.K.K. Munirajah group of Institutions was founded by J.K.K .Munirajah, who is a reputed industrialist, technocrat, an educationalist par excellence, an avid social worker, a person imbibed in deep spiritual values and a philanthropist. The management has completed 25 years of dedicated service to the people of India and abroad in the field of Education. The Institution has an area of 250 acres of land richly endowed with beautiful Greenland. The college with its state-of- the- art infrastructural facilities and excellent academic records has earned recognition as one of the reputed educational institutions for men and women in India.

ABOUT THE DEPARTMENT

The J.K.K. Munirajah college of Technology has the Information Technology Department was started in 2008 with the primary objective to disseminate the knowledge above latest technologies in computer technology to the students , Computer technology has become an integral part of our daily life. It is the most important element in the education of students at the present and the future era. Computer Technology has revolutionized society to a great extent. Technological advancements are so rapid in this field that continual learning is essential to keep the skill set of students up to date. Also, the department strives hard in improving the communication skills, technical and analytical skills of our students through various programs, so that they could compete in the global front. We focus on bridging the gap between campus education and industry needs through internships, guest lectures and workshops.

PROGRAM CONTENTS

- > DevOps Fundamentals
- > Change Agents and the DevOps Journey
- > Deploy and Configure Standardized Environments
- > Environments in IaaS/PaaS and with Containers
- > ARM Templates and Desired State Configuration
- > Build and Deploy Automatically to Production Often and Consistently
- > Automated Builds
- > Automated Deployments
- > Package Management and Containers
- > Test Automatically Before and In Production DevOps Testing Concepts
- > Continuous Testing

PROGRAM OBJECTIVES

- .. Awareness of market trends, customer needs, and competitive landscape. Influences on Consumer Behavior
- .. Providing formal and informal education on entrepreneurship.

PROGRAM SCHEDULE:

Day 1:(12.9.2022) Introduction to Entrepreneurship

Day 2:(12.9.2022) Customer Identification

Day 3: (14.9.2022) Innovation and Technology

Day 4: (15.9.2022) Leadership and Team Building

Day 5: (16.9.2022) Government Initiatives and Support

Day 6: (17.9.2022) Subscription-Based Business Models
