

The institution provides support in terms of financial, academic and human resources required and timely administrative decisions to enable faculty and students to submit project proposals and approach funding agencies for mobilizing resources for research. The college has created an Entrepreneurship Development Cell (EDC) for promoting innovation and entrepreneurship activities. The focus of EDC is to encourage, inspire and cultivate young students by supporting them to work with novel ideas and convert them into prototypes. The faculties are empowered to take up research activities utilizing the existing facilities. The students obtain the projects in their relevant of study as a part of the curriculum. The college has created a learning environment for students with practical oriented pedagogy with expert interaction, industry visits, real time projects and dissertation etc. The workshops, Seminars, Guest lectures are being conducted by different department. The experts are invited from different background to conduct Guest lectures and seminars to share their experiences with the students to update their knowledge. College has signed MoUs with few industries to promote real time project development.. Research cell also helps to create research culture among faculty members and students.
