Mrs. P.Reena, Assistant Professor of CIVIL Department conducted a training on CAD MODEL for CIVIL and MECH and construction of a three-dimensional object for final year students of CIVIL and MECH branch. The module consist of,

Training slot: IV year

- 3D printing is like a magical machine that can create real-life objects from digital designs.
- Building something layer by layer, like stacking Lego bricks, but with a special machine that follows a digital blueprint.
- 3D printing is a cool way of making real objects from a computer design. It's like printing a picture, but instead of ink on paper, it uses materials to build up a physical thing.
- Students making cool projects to professionals creating prototypes for new inventions. It's a tool for anyone who likes to create things.
- Students were taught with slicing software and printer settings.
