Sir,

Subject: Review of identification of gap in curriculum as per 2021 regulations-Reg

As per the feedback collected from our stakeholders like Students, Faculty, Employer and Alumni the gaps are identified in the curriculum listed below for your reference.

- ❖ Topics like Engine management, tooling system are not part of the curriculum.
- ❖ Embedded and Electronics software which is not available in curriculum. It can be added for the benefit of students.

So we request you consider our recommendations for adding the above points during the framing of next regulations.

Thanking You,

Principal
J.K.K. Munirajah College of Technology

Sir,

Subject: Review of identification of gap in curriculum as per 2021 regulations-Reg

As per the feedback collected from our stakeholders (Students, Faculty, Employer and Alumni) the gaps identified in the curriculum are listed below for your referenc

- ❖ Revit architecture is popular software now a days and it is a highly recommended software tool for civil students. Hence addition of that software will be very useful to the students.
 - ❖ Micro station work tool is also very useful to the civil engineers which are also not a part of curriculum.
- So, we request you consider our recommendations for adding the above software's during the framing of next regulations.

Thanking You

Sir,

Subject: Review of identification of gap in curriculum as per 2021 regulations-Reg

As per the feedback collected from our Employer and Alumni the gaps are identified in the curriculum listed below for your reference.

1. Practical configuration of IP addressing, LAN set up should be added in the curriculum.
2. Routing, Virtualization, Networking fundamentals etc., are only in computer networks course which is not sufficient to cope up with the in real time networking companies' expectations. It should be incorporated in curriculum.
