Introduction about Differently Abled Person Facilities

J.K.K.Munirajah College of Technology provides barrier-free environment where people with disabilities can move about safely and freely and use the facilities within the built environment. The environment supports the independent functioning of individuals so that they can participate without assistance in everyday activities within the campus. Buildings / places / transportation systems are made barrier free.

Built environment with Ramp

One of the major objectives of all education programmes that have been implemented at present is to be developing an inclusive education system by providing access to students with disabilities. Our college had provided the ramp facility for the disabled person in our college campus for the easy access of various places in the college by the disabled students. The ramps are carefully designed as per specifications to be used by the differently abled people.

Disabled friendly washrooms

Washrooms are often one of the most important place in a college. We provide people with the ability to feel clean and tidy, as well as giving them space to relax when they need it. But for disabled people, washrooms that are ill-equipped and don't meet their needs can be a real source of stress. So creating a disabled-friendly washroom is very important in allowing someone to make the most of their washroom. There are two differently abled friendly restrooms for both male and female students. These accessible restrooms carry the fixtures and fittings that are comfortable and convenient to the differently abled people. Nonslip floor, sliding door and grab bars provide easy access to the differently abled people Sinks and basins have also been modified and crafted to suit the needs of disabled people more.

Display Boards and Signposts

Sign boards ensure visually impaired persons are able to familiarize with the road and path. Tactile sign on handrails at the ends of a staircase, guide the visually impaired. Educational institutions need to comply with the safety laws and rules and it is essential for them to place the safety signs as per the defined guidelines. These signs ensure the safety of the students in case of any emergencies. Directional signage, safety signage, branding and vision-mission signage are need to be installed throughout the campus.
